

## CSci 231 Homework 0

Create your personal webpage at Bowdoin. At the very least include a picture of you and a paragraph describing you at Bowdoin (junior/senior, major/minor, your interests, when you expect to graduate etc). Besides academic information, it would be nice to include description and links of your extra-curricular activities. Instructions for making a webpage at Bowdoin can be found for instance at <http://www.bowdoin.edu/~ltoma/teaching/cs107/lab1.html>. If you have troubles/questions come talk to me.
