The Latin text quoted at left has introduced Bowdoin’s Commencement Program since August 21, 1822. The names of the 24 graduates of the Class of 1822 were, for the most part, also translated into Latin for the program. In the early years of the College, each graduating senior was required to deliver a Commencement “part,” an oration on ancient or modern topics, which was frequently given in one of the classical languages, Latin, Greek, or Hebrew. The final Latin oration was given in 1893, but the tradition of Latin survives in the language used to dedicate the Commencement Exercises and to confer the bachelor of arts degree. The translation below was provided by Barbara Weiden Boyd, Henry Winkley Professor of Latin and Greek.

May it be good, felicitous, and well-omened:* To John Baldacci, esteemed Governor; to the Representatives and Senators who personally preside over the arts and letters for the State of Maine; and to the honorable and respected Trustees of Bowdoin College; to Barry Mills, distinguished President; to the entire academic senate; to the venerable religious leaders; in short, to all patrons of the human race everywhere, the young people hereby initiated into the arts and letters most humbly dedicate these exercises.

Held in a gathering of Bowdoin College, in Brunswick, in the State of Maine, on the fourth day before the Kalends of June, in the 2010th year of our well-being and in the 234th year of the authority of the United States of America.

* An ancient Roman formula used at the outset of a ritual to ensure its success.

This ancient formula is used by the President in conferring degrees:

Candidati pro gradu baccalaureali, assurge.

Vir honorande, hosce iuvenes, quos censeo idoneos primum ad gradum in artibus, nunc tibi offero, ut a te instructus, eos ad gradum istum admittam. Placetne? (Placet.)

Pro auctoritate mihi commissa, admitto vos ad primum gradum in artibus, et dono et concedo omnia iura, privilegia, honores atque dignitates, ad gradum istum pertinentia.

In cuius testimonium hasce membranas litteris scriptas accipite.

Candidates for the Baccalaureate degrees will rise.

(To the Chair of the Board of Trustees) Honored sir, these young people whom I deem worthy of the first degree in Arts, I now present to you, that, if you so direct, I may admit them to that degree. Is such your will? (It is.)

(To the Candidates) By virtue of the authority vested in me, I now admit you to the first degree in Arts and do grant and confer upon you all the rights, privileges, honors, and dignities pertaining to that degree.

In witness whereof, receive these diplomas.

NOTE: The Baccalaureate degrees are awarded individually, and the graduating class requests that there be no applause until the last degree is conferred.

At the Commencement Exercises, Bowdoin displays the College flag and the flags of the United States of America, the State of Maine, and the home or dual-citizenship countries or territories of graduating students—in 2010, Australia, Canada, Colombia, France, Germany, Greece, Hong Kong Special Administrative Region, India, Ireland, Japan, Mexico, People’s Republic of Bangladesh, People’s Republic of China, Republic of Bulgaria, Republic of Korea, Republic of Singapore, Switzerland, Thailand, The Netherlands, Turkey, United Kingdom, Venezuela, Vietnam.

Joan C. Countryman has a long and distinguished career in education. A graduate of Sarah Lawrence College, with a master of urban studies degree from Yale University, she was a Fulbright fellow at the London School of Economics. She began her teaching career as coordinator of community schools in Philadelphia, and then was a lecturer and assistant dean of students at the University of Pennsylvania. From 1970 to 1993 she taught mathematics at the Germantown Friends School, where she was director of studies, director of independent studies, and assistant head. Countryman was head of the Lincoln School in Providence, Rhode Island, from 1993 until her retirement in 2005. She was drawn out of retirement to serve as interim head of Oprah Winfrey’s Leadership Academy for Girls in Johannesburg, South Africa, in 2006, followed by a one-year term as interim head of the Atlanta Girls’ School. She has been a board member at Sarah Lawrence; the National Center for Independent School Renewal; Women and Infants Hospital; the National Coalition of Girls’ Schools; and the Woodrow Wilson National Fellowship Foundation, among others. She is the author of Writing to Learn Mathematics (1992) and Black Images in American Literature (1977).

J. TAYLOR CRANDALL ’76, Doctor of Humane Letters (L.H.D.)

J. Taylor Crandall of the Bowdoin Class of 1976 and overseer of the College emeritus is managing partner at Oak Hill Capital Partners in California, a firm he joined in 1986. He is also chief operating officer of Keystone, Inc., playing key roles in nearly all of the major transactions in which Keystone has invested. Prior to joining the firm, he was a vice president with First National Bank of Boston. Crandall has an extraordinary record of philanthropy and service at Bowdoin and beyond. Among his generous gifts to the College are four endowed professorships and an endowed scholarship. He was a member of the Board of Overseers from 1991 to 1997. From Maine to Texas and to California, he has given often, generously, and anonymously in support of children’s health, medical research, the arts, and education. Bass Foundation, and he has served as a trustee or board member for the Lucile Packard Foundation for Children’s Health; the Cystic Fibrosis Foundation; the Park City Foundation; and the U.S. Ski and Snowboard Team Foundation.
**Eve Marder, Doctor of Science (Sc.D.)**

Eve Marder is the Victor and Gwendolyn Beinfield Professor of Neuroscience in the biology department at Brandeis University and an internationally known researcher into the dynamics of small neuronal networks using the crustacean stomatogastric nervous system. Her work was instrumental in demonstrating that neuronal circuits are not “hard-wired,” but can be reconfigured by neuromodulatory neurons and substances to produce a variety of outputs. Marder was chief editor of the *Journal of Neurophysiology* from 2002 to 2008 and served on the editorial boards of *Physiological Reviews, Journal of Neurobiology,* and *Journal of Neuroscience,* among others. She is a past president of the Society of Neuroscience, a member of the National Academy of Sciences, and a fellow in the American Academy of Arts and Sciences. She has received the Miriam Salpeter Memorial Award for Women in Neuroscience, the W. F. Gerard Prize from the Society for Neuroscience, the MERIT Award from the National Institutes of Health, and two Javits Neuroscience Investigator Awards. She earned a bachelor of arts degree at Brandeis and a doctorate at the University of California–San Diego.

**Michael S. McPherson, Doctor of Humane Letters (L.H.D.)**

Michael S. McPherson is the president of the Spencer Foundation in Chicago and a nationally known economist and author whose expertise focuses on the interplay between education and economics. He earned his bachelor’s degree in mathematics, master’s degree in economics, and doctoral degree in economics at the University of Chicago. In a twenty-two-year career at Williams College, McPherson was professor of economics, chair of the economics department, and dean of the faculty. He then served as president of Macalester College in St. Paul, Minnesota, for seven years before being selected as the fifth president of the Spencer Foundation, which supports research about education. He has been a fellow of the Institute for Advanced Study and a senior fellow at the Brookings Institution; a trustee of the College Board and the American Council on Education; and president of the TIAA-CREF Board of Overseers. He is the author or co-author of *Crossing the Finish Line: Completing College at America’s Public Universities; College Access: Opportunity or Privilege?;* and *Economic Analysis, Moral Philosophy, and Public Policy.* He was the founding co-editor of the journal *Economics and Philosophy.*

ACADEMIC APPAREL

The formal academic attire that distinguishes faculty and graduates at academic ceremonies is a symbol at once vertical and horizontal. It stretches back into history, to the roots of academic institutions, while at the same time it forms a bond of union among contemporary academic scholars.

The gown, cap, and hood, which would certainly seem quaint today if worn on our city streets, were originally the ordinary apparel of our medieval ancestors. The gowns varied in elegance according to the rank and wealth of the owners, and the hood had the practical function of being pulled over the head for warmth. Many of the medieval universities had strict rules on the subject; at Oxford, for example, the master of arts had to swear that he owned the dress prescribed for his degree and that he would wear it on all proper occasions. Undergraduates were required to wear their gowns whenever they appeared in the public street. After the sixteenth century in Europe different styles prevailed, but the older style was retained for certain legal, official, clerical, and, especially, academic uses.

In America the gown has been used to some extent since colonial times. It was only in the late nineteenth century, however, that widespread interest—sparked perhaps by the observance in 1886 of the 250th anniversary of the founding of Harvard—brought about several developments. In 1887 an enterprising member of the graduating class of Williams College designed academic gowns for the graduates to wear at the Commencement ceremony. The garb was significant and dignified; it was both traditional and democratic; it answered a need, and it quickly became popular. In 1895 an intercollegiate code, standardizing the design and the color of each part of the academic regalia, was accepted by nearly all American colleges and universities.

The gown is usually black, and the cut of the sleeves differs for bachelors, masters, and doctors. In addition, the doctor’s gown has panels of velvet (usually black) down the front and on the sleeves.

The cap is generally black, with a tassel, which is either black or the color of the field of study; a doctor’s may be gold. The most common style of cap is the Oxford “mortar board,” with a square flat top, but some variations are permitted.

The hood is the most distinctive part of the costume. It is made of black and trimmed with velvet. Both the length of the hood and the width of the trim vary with the level of the degree, the doctor’s being the longest and having the widest velvet border. The color of the velvet indicates the field of study in which the degree is earned: for example, white for arts and letters (bachelor of arts), dark blue for philosophy, brown for fine arts, golden yellow for science, scarlet for theology. The lining of the hood is the color and style of the university that confers the degree; these are all specified in the standard code of the American Council on Education. Bowdoin College’s lining is white and green to symbolize the Bowdoin pines.

Whatever the degree or university, those who don the gown and hood symbolically take their places in the long procession of scholars who have pursued truth and learning and passed it on to others. The consciousness of that fellowship is at once a reward for past efforts and an inspiration for the future.

RAISE SONGS TO BOWDOIN

Words by K. C. M. Sills, Class of 1901
New Lyrics by Anthony Antolini ’63
Music by C. T. Burnett
Arr. by Thornton W. Allen

Raise songs to Bowdoin, praise her fame,
And sound abroad her glorious name;
To Bowdoin, Bowdoin lift your song,
And may the music echo long
O’er whispering pines and campus fair
With sturdy might filling the air.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.

While now amid thy halls we stay
And breathe thy spirit day by day,
Oh may we thus full worthy be
To march in that proud company
Of poets, leaders and each one
Who brings thee fame by deeds well done.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.
