### **Protecting the Environment: Reflections on the Role of Leadership**

2009 Muskie Environmental Lecture- by former governor Angus King with an introduction by NRCM executive director Brownie Carson.

Wednesday, March 25 7:00 pm

Muskie Archives, Bates College

NRCM is partnering with The Edmund S. Muskie Archives at Bates College to host this event, which will be held at the Muskie Archives, [70 Campus Avenue, Lewiston](#).

Former Senator Ed Muskie was one of the nation's champions for environmental protection. He was a true leader, an inspiration, and an intellectual force to be reckoned with. The Muskie Environmental Lecture was established to celebrate his life.

This talk also is part of the calendar of events and activities that NRCM is organizing to celebrate our 50th anniversary. By attending this event, you will have a chance to enter into a raffle for great prizes that we will be announcing during the year ahead. We hope you can come hear Governor King's remarks, and celebrate the life of Ed Muskie and the 50 years of NRCM's work to protect Maine's environment.

Please RSVP to Leisa Dennett at [Ldennett@nrcm.org](mailto:Ldennett@nrcm.org) if you plan to attend.

### SUMMER INTERNSHIPS/JOBS

#### **Damariscove Island Stewards** (posted 3-2)

#### **Boothbay Region Land Trust**

Deadline: March 22, 2009

The Boothbay Region Land Trust is seeking a pair of qualified island caretakers to help with the management and stewardship of Damariscove Island, a, nearly treeless island located five miles southeast of Boothbay Harbor. **CANDIDATES ARE ENCOURAGED TO APPLY AS A TEAM.**

The stewards live in a rustic cabin and will monitoring recreational activity, provide stewardship services, and educate island visitors about the island's cultural and natural history, the Boothbay Region Land Trust (BRLT), and The Nature Conservancy (TNC).

Qualified applicants must be self-reliant, able to live in isolated/primitive conditions, and must enjoy communicating with many types of people. Familiarity with Maine coastal flora, fauna and culture, and experience with equipment maintenance are important and helpful skills for the caretakers.

This is a 12-week seasonal position that will be shared by two people working closely together for the duration of the recreational boating season. Both individual and joint applications will be considered. Each caretaker will receive a small living stipend paid every two weeks.

For more information and application instructions please contact Nick Ullo, Lands & Stewardship at: [nullo@bbrlt.org](mailto:nullo@bbrlt.org) or visit our website at: [www.bbrlt.org](http://www.bbrlt.org) by **March 22, 2009**.

### **Ecology Project International – Yellowstone Ecology Program Instructors and Intern**

*Early June – End of August 2009*

*Montana USA*

Ecology Project International, an international non-profit science education organization based in Missoula, Montana, is currently seeking instructors and an intern to teach 9 to 12 day field ecology courses to high school students in Montana, USA. Our programs introduce students to real-world scientific study, raise cultural and ecological awareness, and promote international conservation efforts. EPI offers residential ecology courses to U.S. and international student groups from June through August 2009 in the Greater Yellowstone Ecosystem. Students camp in the Gallatin National Forest while working with the US Forest Service to collect data for various wildlife research projects. They also spend time exploring Yellowstone National Park, whitewater rafting, and participating in service-learning projects. For more complete job descriptions please visit [http://www.ecologyproject.org/english/about\\_epi/jobs.html](http://www.ecologyproject.org/english/about_epi/jobs.html). To apply please send a cover letter, resume, and an EPI instructor or intern application to [info@ecologyproject.org](mailto:info@ecologyproject.org) by April 3<sup>rd</sup>, 2009.

Also, check out the site listed above for other opportunities with Ecology Project International.
