**ON CAMPUS EVENTS**

**Wondering about the Future of Work in the Environmental Field?**
Friday, April 13 11:30-12:30  
ES Common Room, Adams Hall  
Michael Taylor, President, Vita Nuova, LLC

* Join us for pizza and a discussion about the future of work in the environmental field.  
* (Please e-mail Rosie @rarmstro@bowdoin.edu if you plan to attend)

Vita Nuova is a recognized leader in the redevelopment and revitalization of environmentally impacted properties and neighborhoods.

Mr. Taylor (in addition to being the father of Mike Taylor ‘07) was a graduate Rockefeller Fellow at Yale University, where he studied Environmental Science, Public Policy and Ethics. He graduated Cum Laude in Urban Planning and Economics from Roanoke College.

For more information on Vita Nuova, LLC or Mr. Taylor’s work, please visit the website: http://www.vitanuova.net/

**EARTH WEEK EVENTS**

**Step it Up!**  
Saturday, April 14 1:00pm  
Meet at the Polar Bear Statue

After a brief address by Congressman Tom Allen, we will all pose for a large picture to be sent to Congress along with a message asking them to pass legislation that will significantly reduce carbon emissions.

There will also be FREE t-shirts, refreshments, letter and pledge signing, face painting, and a march downtown for those who are interested.

**Global Warming and the IPCC: What’s all the Fuss?**  
Wednesday, April 18th 7:30-9:00  
Druckenmiller Hall Room 04

Panel discussion with Mark Battle (Physics and Astronomy), John Lichter (Biology and Environmental Studies), and DeWitt John (Government and Environmental Studies) on the IPCC Working Group’s report on Climate Change Impacts, Adaptation, and Vulnerability released on April 6, 2007.

Come and hear what the report means and what we can do about it.

**Lunch with Architect Stefani Danes**  
Thursday, April 19 1:00 pm  
Moulton Union- South Dining Room
Stefani Danes (mother of Julia Lediwitz ’08) has combined a career in architecture and urban design with teaching and public service. Her work includes urban housing, housing for special populations, urban design, and planning for neighborhood revitalization. As a principal in the firm of Perkins Eastman, she is responsible for several award-winning housing developments and urban design projects. Her work is focused on urban housing in distressed neighborhoods, where affordability and resource conservation are critical goals.

Ms. Danes holds a master’s degree in architecture from Yale University and a bachelor’s degree in architecture and urban design from Princeton University, where she graduated summa cum laude.

Please go “though the line” to get your food and join others in South dining room. Contact Rosie @ rarmstro@bowdoin.edu if you do not have board.

**OFF CAMPUS EVENTS**

**Hydrogen Energy Center- Annual Meeting**  
**Tuesday, April 10, 2007 at 6:00 PM**

In April we have a general membership meeting with the election of board members, the public is invited. We are fortunate to have two speakers for this meeting. Mike Dunckley of Vectrix Corporation will present details about their electric and fuel cell bikes and Steve Gerlach, an associate in the Bernstein and Shur tax department, will make a presentation on Hydrogen Tax Incentives. We will meet at Bowdoin College’s McLellan Building.

The April 10, 2007 Hydrogen Energy Center (HEC) meeting is special. This is the annual HEC Membership and Board of Directors meeting including election of Board Members. All interested persons are invited to attend. Other issues will be discussed in addition to the choosing of Board Members. However, only HEC members can be involved in Board member selection - either through attendance at the meeting or by proxy. If you are not currently an HEC member, and you want to take part in HEC decisions, bring to the meeting or send us your $35 annual membership fee so we can include you in our membership. Note our website includes a "Members Only" section of technical and "goings-on" information related to hydrogen energy - an added reason to be a member.

**Citizen Action Day – Natural Resources Council of Maine**  
**Tuesday, April 10 8:00am – 4:00pm at the office of NRCM, 3 Wade St. Augusta, ME**

NRCM staff will provide an introduction to the lobbying process and a briefing on the major environmental priorities for this legislative session. After the training session, there will be an opportunity to proceed to meetings with legislators at the State House. Visit our website to become familiar with the key environmental issues facing the Maine Legislature this year: www.nrcm.org.

For more information, contact Ryan Ewing at rewing@nrcm.org.

**Sustainable Living Talk, ”Design and Build Your Own Super-Efficient Home”**  
**Thursday, April 12, at 7:00 pm at F.W. Horch Sustainable Goods & Supplies (Maine St.).**

We are delighted to have Al Heath give our next sustainable living talk. He writes,
"I was a carpenter, designer, and contractor for 12 years before changing careers in 1990. Three years ago when I wanted to build my family a new and much more energy efficient house, I found that not only was it prohibitively expensive, but most of the builders I spoke with didn't really know what "super-insulated, passive solar" meant. I decided to re-educate myself to the new reality and techniques of energy efficiency and build it myself.

It is challenging, interesting, and important work but you don't have to be a rocket scientist! I will share everything time allows, including a list of helpful sources and contractors."

Achieving Global Energy Security Conference
Friday, April 13th, 2007 at University of Southern Maine, Portland

This conference will connect the work of organizations and individuals concerned about energy policy, nuclear issues, global warming, preemptive war strategy in general and the Iraq War in particular.

Major Speakers include:
Mary-Wynne Ashford, MD  former co-President of International Physicians for Prevention of Nuclear War
Michael Renner co-author of Worldwatch Institute's "State of the World"
Catherine Thomasson, MD  President of Physicians for Social Responsibility
Cameron Wake, PhD co-author of "Climate Change in the US Northeast"

To register or for more information, call Jennifer Andersen, Environment Maine, at 207-253-1965 or visit our website at http://www.EnvironmentMaine.org

"Earth Day on the Hill" (being organized in large part by the illustrious Bowdoin alumni, Meg Boyle):

ALL INVITED: Rally in the halls of the U.S. Congress, Washington, DC, any day from April 16th-20th! Meet your fellow environmental champions while you exercise your right to petition Congress for that cap on national greenhouse gas emissions we've been clamoring for since last century. The United States MUST reduce its greenhouse gas emissions to 1990 levels by 2020, and to 80% below 1990 levels by 2050, to avert disastrous climate change. We're asking every able and willing body to come to Washington to tell Congress to make sure that this happens. Come by bus, by, train, by bike, by foot, but come! Contact: 202.518.0044

"Stand With Us"

What is Stand With Us!?!?
Stand With Us, a National Climate Lobby action, is a youth organized event focused on talking to Congressional Representatives about the growing threat of climate change, asking them to support 80% carbon reductions by 2050. We want to continue this historic spring of youth and community climate activism and build on the momentum already present by putting students at the center of a National Climate Lobby effort.

To learn more, go to: http://www.nationalclimatelobby.org/StandWithUs/Home.html
If you sign the online petition, you should still try to sign the same thing in hard copy/in-person.
Please take 30 seconds to sign online and help initiate lasting change that will benefit many 
generations to come!
http://www.thepetitionsite.com/takeaction/865908518
If you would like more information on 'Step It Up!' visit www.stepitup2007.org
If you would like more information on the event in Augusta, email Jack Murphy
(jmurphy3@bates.edu)

UES EPA New England

The US Environmental Protection Agency, New England Office, is seeking
an energetic, organized student to work as an intern this summer in
the Office of Assistance and Pollution Prevention.

Duties: The Office of Assistance and Pollution Prevention assists a variety of sectors with coming
into compliance and going beyond compliance. Duties may include:
1. Conducting research, organizing and analyzing energy and the environment topics to support
ongoing assistance programs to sectors
that include: waste water treatment plants, colleges and universities, K-12 schools, ports and
marinas, and health care facilities.
2. Updating websites and guidance documents.
3. Analysis of compliance audit results for the health care industry.

Skills and Qualifications:
Full time student at an accredited college or university. Good organizational and written and oral
communication skills. Word processing (MS Word), spreadsheet (Excel), web
design/development/maintenance and excellent web research skills.

Length of position:
10 weeks

For further information on applying for work at the US EPA New
England, please see http://www.epa.gov/ohr/student/summerregion1.htm

Research Interns, Waterloo, London, UK

Unpaid position but expenses provided; Start date: as soon as possible
The Climate Group is seeking highly motivated research interns to play a key role in the organisation’s research and business work. Reporting to the Research Programme Manager, the role presents a challenging opportunity for dynamic individuals to work in a successful NGO recently recognised for its work by Science and Time magazines.

The Climate Group is an international NGO with offices in the UK, US, China and Australia that works to promote leadership in response to global climate change. Research forms a key component of The Climate Group’s work to produce and disseminate information on leadership and best practice in the transition to a low carbon economy.

The role will work closely with our existing research team, reporting to the Research Programme Manager and be expected to carry out the following tasks:

- Support the implementation and delivery of The Climate Group’s research and business programme, with a likely focus on corporate strategy, government policy and economics. Provide research input to The Climate Groups’ Leadership programmes and engagement work, as well as to presentations and consultation responses.
- Undertake research and writing required for the presentations of Carbon Down Profits Up and ‘In the Black’: The Growth of the Low Carbon Economy.
- Assist in project management of the publication process and organisation of events if necessary

The successful candidates will have the following skills and experience:

- Working towards, or already in the possession of, a good first or second degree in a relevant area
- Available for a minimum 8 week continuous period
- An understanding of corporate performance on climate and energy issues
- At least two years experience carrying out research-related tasks
- Good writing skills
- Ability to work on different projects and provide research inputs at short notice
- Ability to work on his/her own initiative

Interested candidates should in the first instance email a CV and covering letter to: Beth Ambrose
bambrose@theclimategroup.org
Check out: www.theclimategroup.org

**2007 Summer Camp Opportunity For Naturalist / Teacher, Albion, Maine**

Hart-to-Hart Farm is seeking a qualified individual to co teach and lead campers, ages 7-12 during a 7 week day camp program. Applicant will work closely with director to develop, plan and teach sustainable environmental/agricultural lessons to campers on a working organic dairy farm in Maine. The camp is located on our 285-acre organic dairy farm in Albion, Maine. Campers have the opportunity to explore a variety of farm animals, gardens, wetlands, fields and forest to discover the natural rhythms used in creating a healthy farm ecosystem. Campers enjoy a variety of experiences using art, observation, and hands-on activities. One program highlight: campers have a chance to “adopt” their own farm animal and learn how to care and feed them while building a relationship and understanding of animal behavior. A typical day at camp includes farm chores, focus exploration lesson, crafts, educational activities and games.

Qualifications: Successful applicants must have pervious teaching experience at either an environmental education center, camp counselor, classroom teacher or other teaching experience or similar work with children. Requires creativity, positive energy, enthusiastic, excellent communications skills and a good sense of humor. Familiar with farm ecosystems, New England
ecosystems and / or natural history. A willingness to work with a variety of farm animals. Enjoy getting dirty investigating gardens, ponds, fields and our forest. First aid and CPR certified. Applicants should be 18yrs of age or older.

Dates:  June 18 – August 10  (1wk training plus 7 wks camp)
Camper: Counselor Ratio – 8:1  Camper Enrollment/ Session: 16
Stipend:  $2,000 including room & board (job can be used as an internship)

Closing Date:  May 20st or when filled

To Apply:  Send cover letter, resume, and list three references to Linda Hartkopf, Director, Hart-to-Hart Farm, 16 Duck Pond Land, Albion, ME 04910 or email to hhart@uninets.net.

**Maine Department of Environmental Protection- internship**

The Division of Land Resource Regulation is accepting applications to fill an 18-week seasonal position for a Conservation Aide in the Augusta region. The Conservation Aide will assist the Enforcement and Field Services Unit in the Southern region of Maine. Duties include: Use of a State vehicle to travel to permitted sites to check on compliance with permitting, gather site and field information related to potential violations, follow up on inspections where non-compliance was documented; GPS locating, and data entry/management.

Minimum Qualifications: Must have knowledge and/or experience in conservation work and/or a high school diploma or equivalent. Computer experience and various database knowledge is a plus. Must be at least 18 years of age.

Special Requirements: Must possess a valid Class C driver’s license.

For job specifics, please contact Mike Mullen at 287-4728. Application Procedure: Interested candidates should mail or fax a State of Maine Direct Hire Application available at all Maine Career Centers and on line at [http://www.maine.gov/statejobs/directapp.htm](http://www.maine.gov/statejobs/directapp.htm) Send application to Mike Mullen, Maine Department of Environmental Protection, State House Station 17, Augusta, Maine 04333. Applications must be received by the closing date.

Any job offer to new hires is conditional upon verification of credentials, criminal records and driver’s license check. Three references must be provided and made available at the interview to include at least one work-related reference.

**Conservation Aide - Augusta**
18-Week Seasonal Position
Approx. from May 21 to August 24, 2007

Grade: 6  ($9.32/hr - $12.04/hr + 7.5% stipend)  Code: 9455  Position:  #2032
Value of State’s Share of Paid Health & Dental Insurance:  $310.74 bi-weekly
Value of State’s Share of Employee’s Retirement: 18.54%

**Attention Marine/Environmental Science Educators**
The Whale Camp has summer employment opportunities available for Marine/Environmental Science Instructors. Located on beautiful Grand Manan Island in the Bay of Fundy, off the coast of Northern Maine, The Whale Camp features student and family whale and marine mammal
observation and research, hands-on marine science and oceanography. Complete job description
and applications available at www.whalecamp.com

Contact: Dennis Bowen
whalecamp@verizon.net
610-399-1463

Stewardship Intern

The Royal River Conservation Trust, committed to preserving the natural, historic, scenic and
recreational values of the Royal River region, is seeking a summer intern to assist the
organization in its efforts to oversee and manage its properties. The intern will work closely with
the Stewardship Coordinator in the office and in the field to complete baseline studies as well as
participate in trail maintenance activities. The duration of the internship is June through
September with flexible start and end dates. This is a part-time position requiring 15-20
hours/wk.

Background Information: Last spring, four land trusts – the North Yarmouth Land Trust,
Yarmouth Land Trust, New Gloucester Land Preservation Trust and the Friends of the Royal
River – merged to become the Royal River Conservation Trust (RRCT). RRCT holds 23
easements and owns 6 properties throughout the watershed, totaling over 700 acres.
The ideal candidate will be looking to gain professional experience working in the non-profit
sector. He or she will have demonstrated an interest in land conservation and management and
possess an understanding of mapping software.
Interested candidates should send a cover letter and resume to:
Henry Nichols
Royal River Conservation Trust
P.O. Box 90 Yarmouth, ME 04096
royal@maine.rr.com

Campaign Jobs – Take Back the White House 2008

Fed up with the War in Iraq? Tired of the U.S. ignoring global warming? Just plain sick of
Republican corruption?

Grassroots Campaigns is hiring campaign staff to start now to build towards the 2008 elections
and put our country on a better path. We are currently interviewing graduating seniors to join our
campaign teams starting this summer, to work building our base of operations in the field, in
conjunction with partner groups such as the National Democratic Party and MoveOn.org Political
Action.

Qualifications: Drive and determination to work for progressive social change, proven track
record of leadership ability, excellent communication skills

To apply or get more information please submit your resume to or contact: Sarah Marini at
smarini@grassrootscampaigns.com or call (617) 338-7800.
(For applicants) Upon receiving your resume you will be contacted by Sarah Marini with more
information about the specifics of the positions, and opportunities to interview.

Application deadline is April 20th.
Intern Job description at the Androscoggin Valley Soil and Water Conservation District

AVSWCD is a not-for-profit quasi-state agency whose mission is to promote the conservation and stewardship of soil, water and related natural resources, by providing leadership, technical assistance and educational programming to and with the citizens of Androscoggin and Sagadahoc Counties. We provide citizens with the information, resources and referrals needed to make land use decisions that are environmentally and economically sustainable.

On-going work includes 3 watershed projects, implementing management practices that serve to protect resources.
Duties may include, but are not limited to:
Assisting in field work, design preparation, soil loss calculations
Meeting with landowners and steering committees
Helping to prepare reports
Assisting in installation of practices, such as buffer plantings

Start-up projects include a new river watershed survey (if the grants are approved) and a new groundwater project that will be implemented this spring.
Duties may include, but are not limited to:
Mapping, using ArcView
Helping to prepare training materials
Helping to train volunteers
Participating in the survey
Assisting with technical follow-up of the survey
Assisting with research and accumulation of existing groundwater related educational materials, programs and funding for farms in well head protection zones.
Assisting with development of new farm focused groundwater educational materials

Salish Sea Expeditions Deckhand and Marine Science Educator Positions

Looking for an exciting, hands-on, positive work environment on a sailboat in Washington’s Puget Sound? Salish Sea Expeditions is currently hiring for Deckhand and Marine Science Educator positions. Using Inquiry Based science models, Salish provides multi-day research expeditions for 5th-12th grade students. Come aboard!

Marine Educator

Responsibilities include, but are not limited to: working with students in their classroom to design a marine research project, sampling plan and itinerary. Aboard the sailing vessel, the Marine Educators supervise students who are deploying science equipment, analyzing data, operating the ship, camping, and cooking. In the evenings, educators may assist in organizing free time activities for student participants. Other duties may include program development, food and supply packing, office and logistical projects and general maintenance of equipment. Marine Educators work with one other educator and several other staff while on board.

Qualifications: BA/BS in science and/or education in marine science, demonstrated teaching ability and current first aid/CPR. Experience working with 10-16 year olds is highly desirable. The ability to work well both individually and as a team member. Teaching certification, advanced first aid, and boating skills desirable. Sufficient physical strength and agility to carry
out the essential duties of the position, including participating in boat based activities, lifting and
carrying gear up to 50 pounds, as well as an ability to be an effective team member in the risk
management strategies of the organization.

Contract dates: Immediately – Mid June, full time
Compensation: $1400-$1600/mo. depending on experience, plus shared room & partial board

**Deckhand / Instructor**

Job Description: Deckhand duties include, but are not limited to: instructing and overseeing
students in proper vessel operation, presenting nautical science topics both in the classroom and
on the vessel, and teaching a variety of sail classes while underway. The Deckhand works both as
one member of a 5-7 person team and independently. Some office time may also be necessary to
prepare for the trips.
Qualifications: Sailing and teaching experience. Demonstrated ability to safely direct/instruct
others to operate the vessel and experience and interest in working with 10-16 year olds. Interest
in marine science and science education highly desirable. First aid/cpr certification required;
advanced first aid and water safety training highly desirable. Sufficient physical strength and
agility to carry out the essential duties of the position, including participating in boat based
activities, lifting and carrying gear up to 50 pounds, as well as an ability to be an effective team
member in the risk management strategies of the organization.

Contract dates: Immediately – Mid June full time
Compensation: $1400-$1600/mo., depending on experience, plus shared room & partial board.
To Apply: Send a cover letter, resume and contact information for 3 references to:

Lori Mitchell, Education Director
Salish Sea Expeditions
Bainbridge Island, WA 98110
(206)780-7848
lori@salish.org

Submit application materials immediately

**Environmental Educator, at Wells Reserve**

The Environmental Educator will be responsible for the development, implementation, and
management of leading a series of half-day environmental education camp programs for children
ages 6-9 called “Just for Kids”. Each program has a central topic, on which outdoor hands-on
explorations, short science experiments, games, crafts, and a take-home activity booklet are to be
developed by the educator. He/she will be responsible for evaluating the success of the Just for
Kids camp program. He/she will also work with another educator to co-lead the Junior
Researchers day camp for children ages 9-13, which includes one overnight. The person in this
position will also develop and lead other interpretive education programs for the general public as
needed.

Time: A full-time commitment is required from June 5 through August 28. Starting date and
ending dates are slightly flexible.

Qualifications:
minimum two years of college working toward environmental education, education,
environmental science, marine biology, biology, or related degree (or equivalent experience)
ability to work independently and as part of a team
experience teaching children
strong computer and organizational skills
educational program planning experience strongly preferred
valid drivers license with a clean driving record

Compensation: The salary range is $3000 to $3400 with the potential for community housing within walking distance if desired.

To apply: Please send a cover letter and resume to the address or email below. Applications must be postmarked by April 2. Early submission of applications is strongly encouraged.

Connecticut Health Foundation: Accepting Applications for Health Leadership Fellows
Deadline: April 27, 2007

The Connecticut Health Foundation is accepting applications for the 2008 Health Leadership Fellows Program, a one-year knowledge and skill-building program—designed to create leaders, especially from historically underrepresented racial and ethnic communities—who will pursue careers in public policy, public health practice, community advocacy, academia, or any other related field. For complete information, visit: http://www.cthealth.org/matriarch/MultiPiecePage.asp_Q_PageID_E_171_A_PageName_E_LeadershipFellows.

Enterprise Community Partners: Frederick P. Rose Architectural Fellowship
Deadline: Varies

The Frederick P. Rose Architectural Fellowship was established to create partnerships between emerging architects and community-based organizations to direct the skills and passions of the architects in the service of low and moderate-income communities. The fellowship is designed to promote the value of quality design and green building in affordable housing and encourages architects to become lifelong leaders in public service and community development. For complete information, visit: http://www.rosefellowship.org/.
Organization: Environmental Grantmakers Association

Apply by Friday April 13 for the SSC’s AMAZING Climate Summer WV-OH Program!

Its going to be 6-weeks of intense training, community solidarity work, service work and organizing. We'll be in West Virginia helping organize a mountain top removal fly over with the President of the Sierra Club and another prominent figure and 3 weeks in Meigs County, OH
supporting Elisa Young and the Meigs Community Action Network fight the power plants, mining and sludge impoundments proposed for their community. We'll be doing canvassing, training and working on Elisa's farm as well as coordinating with other Mountain Justice Summer programs and some of the most inspiring community leaders and organizers in Appalachia.

April 13 is the second round and FINAL deadline for all students to apply to be part of this truly unique opportunity. So go to the site here:  http://www.ssc.org/climate/climatesummer.php <http://www.ssc.org/climate/climatesummer.php> to download the application and send it in to kim@ssc.org <mailto:kim@ssc.org> by the end of the week.

During the 6-weeks we will cover all of your housing, food and transportation expenses as well as the occasional movie and other fun stuff. We'll kick off the program at the Mountain Justice Summer training in Knoxville, TN May 20-27 and then travel to Charleston and Meigs to help out community groups, learn about the true costs of coal and develop our skills as organizers and trainers. The program will end June 30 with a big Appalachian bash in the mountains. All participants will also be invited to the SSC’s National Grassroots Leadership Gathering in New Hampshire August 6-12.

Visit the site today for more information as well as the downloadable application:  

PS. Once you've been accepted into the program, you will be expected to participate in about 3 1-hour long conference calls in April and May leading up to the program. Part of the program also requires you to commit to leading trainings based on your experiences once you return to your home areas throughout the coming year. There will be extensive training for trainers to prepare you for this.

**AWARDS**

Earth Island Institute: Accepting Applications for Brower Youth Award
Deadline: May 15, 2007
A program of the Earth Island Institute, the Brower Youth Award is an annual national award recognizing six young people for their outstanding activism and achievements in the fields of environmental and social justice advocacy. The awards recognize young people between the ages of 13 and 22 living in North America. For complete award information, visit: http://www.broweryouthawards.org/article.php?list=type&type=12.

Gleitsman Foundation: Invites Nomination for 2008 Citizen Activist Award
Deadline: November 2, 2007
The Gleitsman Foundation encourages individual commitment and leadership by recognizing the exceptional achievement of those who have initiated positive social change. The foundation seeks to honor those individuals whose vision and courage inspire others to join with them in
confronting and challenging injustice. For complete information, visit: http://www.gleitsman.org/citForm.html.

**OFF CAMPUS STUDY OPPORTUNITIES**

**Organization:** Boston Architectural College  
**Opportunity:** Sustainability online courses

Our online courses are available completely online, and are open to those interested in sustainability, regardless of professional background or previous knowledge. We are making education about sustainable design available to anyone, at any time, and any place. The courses have been developed in partnership with BuildingGreen, Inc.

We are proud to announce that a number of our courses have been accepted in the USGBC’s Education Providers Pilot Program as the “highest-quality, most current programs from proven green building leaders.” Please visit the USGBC’s website for more information: http://www.usgbc.org/DisplayPage.aspx?CMSPageID=1527

Please visit our website to find course descriptions, our instructor bios and information about how to register: www.the-bac.edu/green. Please let me know if you’d like us to mail you an information packet.

**OPPORTUNITIES FOR GRADUATES**

**Researcher/Writer**  
**Regulatory Assistance Project, C/O Energy Foundation**

The Regulatory Assistance Project (RAP) is a non-profit organization, formed in 1992 by experienced utility regulators, that provides research, analysis, and educational assistance to public officials on electric and natural gas utility regulation.

RAP is committed to fostering regulatory and market policies for the electric and natural gas industries that encourage economic efficiency, protect environmental quality, assure system reliability, and allocate system benefits fairly to all customers.

RAP's work covers a wide range of topics including electric utility restructuring, power sector reform, renewable resource development, the development of efficient markets, performance-based regulation, demand-side management, and green pricing. RAP also provides regulators with technical assistance, training, and policy research and development. RAP has worked with public utility regulators and energy officials in 45 states, Washington D.C., Brazil, India, Namibia, China, Egypt, and a number of other countries.

You can learn about us at www.raponline.org. We have Offices in Maine and Vermont. My work involves energy and regulatory policy in China. We have been involved in China for the past six years.

We currently plan to hire another researcher/writer later this year. This person must have excellent writing, research and interviewing skills. Knowledge of and interest in energy and environmental issues are important. Knowing Chinese would be a real plus.

Parties interested in this position should e-mail Cathie Murray at cathie@raonline.org
Island Institute Fellowships

Are you an energetic, flexible, committed recent college or master's graduate eager to make a difference along the coast of Maine?

The Island Fellows Program is one of the signature programs of the Island Institute, a non-profit committed to sustaining the islands and communities of the Gulf of Maine. Since 1999, the Island Fellows Program has placed over 50 recent college and master’s graduates in coastal and year-round island communities for one to two-year assignments addressing community-identified projects. The Fellowships provide a unique opportunity for recent graduates to use their skills and experience to help build sustainability within communities whose way of life and identity face many challenges.

Fellows also become valued members and contributors to their community, providing an added benefit by helping to organize community celebrations, serving as volunteer firefighters and EMT service providers, coaching and mentoring youth, playing music for community events and using their skills and hobbies to better their community.

For more information on tentative placements, please visit: www.islandinstitute.org/fellows/fellowprojects.asp

Benefits: The Institute provides the Fellow with a stipend and living allowance of $16,400 plus an additional $450/month for a housing stipend if housing is not provided, for a total of $21,800. Fellows also receive health insurance. Some positions provide AmeriCorps benefits, which include deferred student loans, and an education award of $4,725 upon successful completion of 1,700 hours of service.

Minimum Qualifications: Recent completion of a baccalaureate or graduate degree (within 4 years), or equivalent demonstrated experience in a designated field; A strong service ethic; Flexibility; A strong desire to live and work within small, remote communities; Strong self-motivation and ability to work with minimal supervision

Applications must be received by Friday, May 25, 2007. However, selections will be made on a rolling basis, so applicants are encouraged to apply early.

Visit our website for an application and further information: www.islandinstitute.org, or contact Cyrus Moulton, the Island Institute’s Fellows Program Coordinator at (207) 594-9209, ext. 146 or via e-mail (cmoulton@islandinstitute.org)

Maine DEP Air Bureau

Maine DEP Air Bureau has urgent need for a recent college graduate who could serve 5-6 months in an AmeriCorp Environmental Educator Volunteer position doing a school energy/greenhouse gas emission survey for k-12 schools in the state. This position entails contacting school officials to inquire about their energy use, calculating their ghg emissions (using our software), documenting what the school officials see as energy efficiency needs/opportunities in their schools and to educate them about the future RGGI public benefits program that could help fund such projects. A final project report prepared at the end of the 5 month project will provide information that the state will use to identify opportunities for greenhouse gas reduction projects in school facilities.
The volunteer will also be assisting in education outreach projects with DEP and Maine Energy Education Program staff - to a few (possibly 8) schools - working with high school students there to do a guide them in conducting comprehensive school energy use survey and help them identify potential energy efficiency opportunities.

The position is based in Augusta - works 40 hours/week for 5-6 months. The AmeriCorp Environmental Educator position with the DEP Air Bureau is looking for someone to begin immediately and last through August. The stipend offered by AmeriCorp is about $210 per week and also has an educational award at the end of service - payable to college loans or other college programs.

For more information, contact Deb Avalone-King at Maine DEP phone 207.287-7028 or by email at debbie.j.avalone-king@maine.gov. To apply for the position contact Jo Hersom of the Maine Conservation Corp at 207.287-4398.
