

OFF-CAMPUS STUDY PRELIMINARY APPLICATION (for OCS in 2010–11)

Please return to the Off-Campus Study Office (Coe 301) no later than 2 November 2009

This preliminary application is required if you intend to study off campus in the fall semester of 2010, spring of 2011, or the full 2010-11 academic year. A faculty member in your intended major department(s) will help you start planning your off-campus study early in the previous academic year, and make sure that the plans you outline here represent your best options for integrating your study away into your major and your degree at Bowdoin. Your answers will also help Bowdoin anticipate the number of students who will be studying away in each semester of the next academic year. It is recommended that you give first consideration to the fall semester, as the spring is generally more popular, and approval is not assured if the application numbers for each semester are unbalanced. The more detailed standard Off-Campus Study application will be due by 22 February 2010.
