Declaration of Intent-Dual Degree Engineering Program

Once a student decides to pursue a dual degree, the student needs to:

- Receive permission from department in which they are majoring at Bowdoin
- Meet with a representative in the Office of the Registrar;
- Submit this declaration of intent to the Office of the Registrar. This form should be completed in coordination with a Bowdoin faculty program advisor or the relevant Associate Dean for Academic Affairs. Further information is available in the Academic Handbook.
- Meet with the Off Campus Study office if the student will be entering the 2-1-1-1 program at Dartmouth.

General Education Requirements

This complete record has been reviewed by the Office of the Registrar and the student will meet all distribution/division credits at Bowdoin prior to attending the dual degree program, will meet major requirements with the curricular plans noted and with the approval from the aforementioned advisor, and will meet general credit requirements of the college.
