

# Peer-to-Peer Systems (P2P)

# Napster (1999)

# Napster Architecture

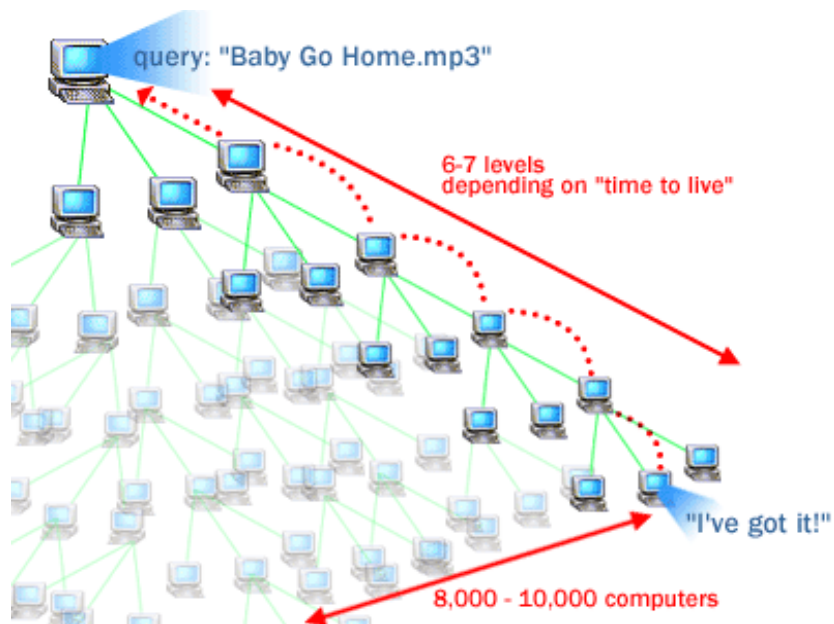

# Gnutella (2000)

# Gnutella Architecture

# Gnutella Queries

## Kazaa / FastTrack (2000)

## BitTorrent (2001)

# BitTorrent Architecture

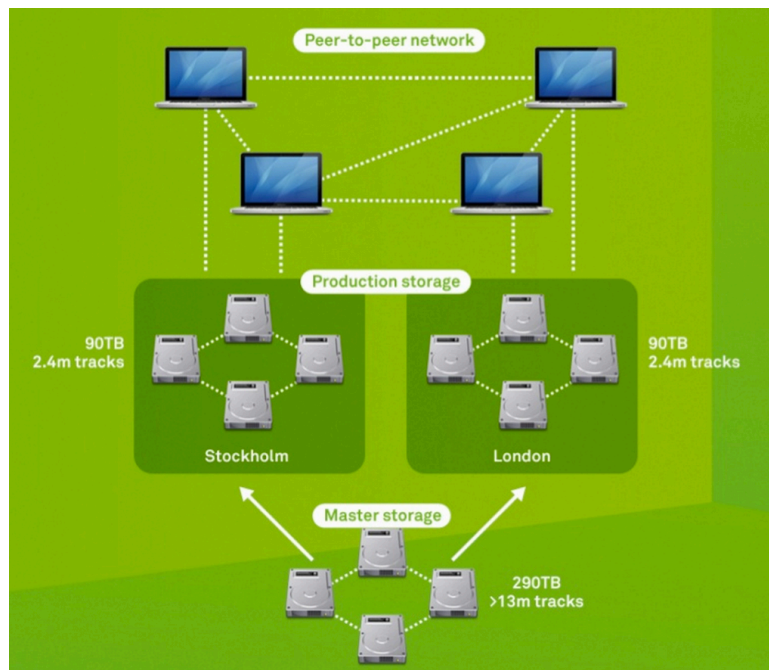

# BitTorrent Downloads

# P2P Comparison

	Centralization	Query Model	Scalability	Overhead
<b>Napster</b>	High; central server	Direct server lookup	High	Low
<b>Kazaa</b>	Moderate; SuperNodes	Query flooding	Moderate	Moderate
<b>Gnutella</b>	Low (pre-UltraPeers)	Query flooding	Low	Low
<b>BitTorrent</b>	Moderate; trackers	N/A	High	Moderate
<b>DHT</b>	Low	Direct lookup (exact)	High	High
