

CSCI 2330 FOUNDATIONS OF COMPUTER SYSTEMS

Sean Barker
Bowdoin College

Department of Computer Science

The Big Question

How does a program run?

```
/**  
 * Simple HelloButton() method.  
 * @version 1.0  
 * @author john doe <doe.j@example.com>  
 */  
HelloButton()  
{  
    JButton hello = new JButton( "Hello, wor  
hello.addActionListener( new HelloBtnList  
  
    // use the JFrame type until support for t  
    // new component is finished  
    JFrame frame = new JFrame( "Hello Button"  
    Container pane = frame.getContentPane();  
    pane.add( hello );  
    frame.pack();  
    frame.show();           // display the fra  
}
```

Abstractions

Personnel and Resources

Instructor: Sean Barker

Email: sbarker@bowdoin.edu

Office: Searles 220

Office Hours TBA (or by appointment)

Learning Assistants (lab hours in Searles 224,
schedule TBA):

Abby Mueller

Andy Stoneman

Anna Leitner

Daniel Grant

Jared Joyce

Patrick Kingston

Email **Slack** for discussions/questions/info...

Course Components

Labs (~6)

Exams (3)

Attendance and engagement

Expectations

Other Administrivia

Health policy

Laptops

Textbooks

*****
*****

Please be mindful that this machine is a shared resource. If you need
to run very intensive computational programs, please consider running
them on the HPC Grid instead. For more info, please peek at:
http://hpc.bowdoin.edu/

Thank you!
