

Faculty Form

Your Name:

Laboratory Instructor with whom you taught:

Course:

Semester:

Please answer the following questions (offering specific examples when possible):

1. What was your level of involvement in this course's lab?
2. What is your assessment of the quality of instruction offered by the laboratory instructor?
3. Did the laboratory instructor return graded work in a timely manner?
4. What unusual circumstances, if any, might have influenced the quality of the laboratory instructor's work or students' learning experiences (e.g., unusually high enrollments, significant redesign of the course/lab, etc.)?
5. What suggestions do you have for improving collaborative interactions between you and the laboratory instructor?
6. Do you have any additional comments?
