MEMORANDUM

To: The Faculty
From: Jen Scanlon, Senior Vice President and Dean for Academic Affairs
       Rachel Beane, Associate Dean for Faculty Recruitment and Pre-major Advising
       Dallas Denery, Associate Dean for Curriculum
       Dharni Vasudevan, Associate Dean for Faculty Development and Inclusion
Date: August 8, 2024
Subject: Start of Fall 2024 Semester Notes and Reminders

Welcome to Bowdoin’s 223rd academic year! We are looking forward to the start of the fall semester and want to remind you that all of us in the Office of the Dean for Academic Affairs are available to support you in your work.

Of note this semester is a series of talks hosted by the Office of Inclusion and Diversity which you may want to incorporate into your course syllabus.

- **Eric Foner**, DeWitt Clinton Professor Emeritus of History at Columbia University,
  **Wednesday, September 18, 2024**
  *How the Lessons of Reconstruction Have Impacted the Current Political Climate.*
  4:30 - 6:00 p.m. Kresge Auditorium.
  6:00 - 8:00 p.m. Community Dinner in Daggett Lounge. Join other students, staff, faculty and community members who attended the talk to engage together in conversation. RSVP at least one day ahead is required.

- **Adam Berinsky**, Mitsui Professor of Political Science, Massachusetts Institute of Technology
  **Thursday, September 26, 2024**
  *Why We Accept Misinformation and How to Fight It.*
  4:30 - 6:00 p.m. Kresge Auditorium.
  6:00 - 8:00 p.m. Community Dinner in Daggett Lounge. Join other students, staff, faculty and community members who attended the talk to engage together in conversation. RSVP at least one day ahead is required.

- **Rachel Wahl**, Associate Professor in the Social Foundations Program, Department of Educational Leadership, Foundations, and Policy at the School of Education and Human Development at the University of Virginia
  **Wednesday October 16, 2024**
  *Learning through public deliberation between people on opposing sides of political divides.*
  4:30 - 6:00 p.m. Kresge Auditorium.
  6:00 - 8:00 p.m. Community Dinner in Daggett Lounge. Join other students, staff, faculty and community members who attended the talk to engage together in conversation. RSVP at least one day ahead is required.
• **David French** is an author and columnist writing about law, culture, religion and armed conflict. He is currently writing a weekly newsletter for the *New York Times*. He is a former senior editor for the *The Dispatch* and a former senior writer for *National Review*.

**Wednesday, October 30, 2024**
*An Evening with David French*

4:30 - 6:00 p.m. Kresge Auditorium
6:00 - 8:00 p.m. Community Dinner in Daggett Lounge. Join other students, staff, faculty and community members who attended the talk to engage together in conversation. RSVP at least one day ahead is required.

**Additional Talk of Note**

**Amanda Adeleye, MD**, Founder and Medical Director of CCRM Fertility of Chicago

• **Friday, October 18, 2024**
  12:30 - 1:30 p.m. Kresge Auditorium
  In conjunction with Family Weekend, and in lieu of the annual Kates Lecture, the department of Government and Legal Studies and Academic Affairs will co-sponsor a lecture by Amanda Adeleye, MD. Dr. Adeleye, a distinguished reproductive endocrinologist and infertility specialist, is dedicated to advancing the field through both research and practice. Focused on increasing access to care and education for the LGBTQ community and people of color, her talk, title TBD, will focus on health inequities in fertility-related care and the current state of accessing fertility services in the U.S.

**Professional Development Opportunities: Save the dates**

• **Friday, August 23, 2024: The Cognitive Challenges of Effective Teaching with Dr. Stephen Chew** (Professor of Psychology, Samford University), Colby, Bates and Bowdon Pedagogy Matters Conference. (9:00 a.m. - noon/online, noon - 1:00 p.m. optional lunch on campus, please register).

• **Wednesday and Thursday, September 18 and 19, 2024: Generative AI with Lilach Mollick** (Co-Director of the Generative AI Lab at Wharton, University of Pennsylvania). Registration information forthcoming.
  - Overview Talk: Practical AI for Educators. (9/18 from 4:30 -5:45 p.m.)
  - Workshop 1: Introduction to Prompt Crafting and Generative AI (9/19 from 11:45 - 1:00 p.m.)
  - Workshop 2: Building Prompts for Others and Creating GPTs and Interactive Tools (9/19 from 4:30 - 5:45 p.m.)

• **Friday, October 18th: Workshop: Academic Publishing - Book Proposal to Final Manuscript with Kerry Webb** (Senior Acquisitions Editor, University of Texas Pres). Two identical workshop offerings: 9:30 - 11:00 a.m. and 2:30 - 4:00 p.m. and informal lunch from 11:30 a.m. - to 12:30 p.m. Registration information forthcoming.

**Other items you might want to include in your course syllabi**

• As noted last year by the Committee on Teaching and Classroom Practice (CoTCP), faculty are advised to state on their course syllabi their expectations relative to use of generative artificial intelligence (AI) for assignments. See the Canvas course “Resources for Faculty and Instructors” for resources collected by CoTCP and Academic Technology & Consulting (ATC). Additionally, we are providing a link to some Sample Syllabus Language that can easily be integrated into your syllabus to describe your policies and expectations for student use of generative AI. This sample language will continue to be revised to reflect the rapidly evolving AI landscape, so be sure to check back frequently for updates. You may also be interested to read this article in The Chronicle for Higher Education by Beth McMurtrie.
As we often say at the end of the semester when students are filling out their Bowdoin Course Questionnaires (BCQs), the single most effective method for ensuring strong response rates on BCQs is to designate in-class time for students to fill out their BCQs. Although students may access their BCQs at any time during the fill-out period, we recommend that you reserve time during one of the last class sessions when you leave the room and ask students to complete their BCQs for the course. Adding this to the syllabus could help set this expectation.

**Workday Student Update**

The Workday Student implementation will move into its final and most intensive phase during the Fall and Spring semesters as we prepare to go live in early March. As I have mentioned, a project of this magnitude is a community effort that, in one way or another, will involve most every member of the campus. There is one aspect of the implementation immediately relevant to faculty as the Fall semester begins. We request that faculty limit new course proposals/revisions to only those courses that are needed to meet curricular necessities in Spring 2025 and Fall 2025 semesters. All new courses and course revisions required for the Spring 2025 semester must be submitted to CIC by September 13. All new courses and course revisions required for the Fall 2025 semester must be submitted to CIC by September 27. Here is a [link](#) to the memo sent to all faculty explaining the need for and nature of this request.

**Note on Balancing Accountability and Flexibility**

While we have moved out of the COVID-19 pandemic, its impacts continue to be felt. In this context, please remember the need to balance accountability and flexibility in your teaching. The consensus is that students do best when provided with structure and clarity of expectations. This allows them to plan their semester and juggle competing claims on their time. At the same time, all of us have firsthand experience with unexpected events, emergencies, and illnesses that have upended our best-laid plans. In these cases, all of us need responsiveness and flexibility. For the sake of equity as well as your own well-being, it is best to be explicit and upfront about expectations of students and limited provisions for flexibility on your course syllabus. Please be sure to hold students accountable. For related resources, you may visit “Teaching at Bowdoin: Intentional Course Design” on your Canvas Dashboard (especially Module 3.2).

**Standard Policies and Practices**

College policies and practices for instruction, can be found in the Faculty Handbook Section V, on the Teaching and Advising webpage, in the Academic Calendar, and in the Bowdoin College Catalogue and Academic Handbook.

Note: All classes at Bowdoin meet in person. Please do not honor student requests to Zoom into class, except in rare circumstances with guidance from, or in consultation with, Dallas Denery, associate dean for curriculum.

**Scheduling Meetings and Events**

The course Time Blocks include two Friday blocks when no classes are scheduled: a meeting block (Fridays 2:20-3:20 p.m.) and a Common Hour (Fridays 3:30-4:50 p.m.). Currently, there are no campus-wide Common Hour events planned for the fall semester, but any such events will be publicized via email and the Digest.

Monthly Faculty Meetings will take place on select Fridays 2:20-3:50 p.m., with the first taking place on Friday, September 6, 2024, in Mills Hall Room 220. Agendas and materials for faculty meetings will be available on Canvas and announced via email on the Wednesday before each meeting. Additional faculty forums may be announced by the Governance and Faculty Affairs Committee (GFA). The schedule of faculty meetings and reserved forum dates can be found [on the Academic Affairs website](#).
Start of Semester Dates
This is the first year for two changes recently adopted by the faculty: summer registration for incoming students and a weeklong break from classes at Thanksgiving, both of which involve shifts in the fall semester academic calendar. Please refer to the Academic Calendar and the Registrar’s Calendar for a comprehensive view of dates and deadlines, but here is a summary of opening events:

<table>
<thead>
<tr>
<th>Date</th>
<th>Event</th>
</tr>
</thead>
<tbody>
<tr>
<td>August 12</td>
<td>Provisional Course Schedules Available in Polaris for incoming First Years</td>
</tr>
<tr>
<td>August 23</td>
<td>International Student Orientation Begins</td>
</tr>
<tr>
<td>August 26</td>
<td>New Student Arrival Day</td>
</tr>
<tr>
<td>September 2</td>
<td>Advisor Breakfast, Daggett Lounge at 7:30-8:30 a.m. (boxed lunch will be available to go)</td>
</tr>
<tr>
<td></td>
<td>Group Advising Meeting, Advisor’s Office from 8:45-9:05 a.m.</td>
</tr>
<tr>
<td></td>
<td>Academic Fair, Main Quad from 9:15-10:15 a.m.</td>
</tr>
<tr>
<td></td>

</table>

Religious Holidays
As members of a multicultural community, our students come from a variety of religious backgrounds and may wish to observe important religious holidays. While it is not feasible to schedule coursework around all religious holidays, faculty members should honor requests from individual students to reschedule assignments and to be absent from classes that conflict with their observance of major religious holidays. No student is required to take an examination or fulfill other scheduled course requirements on recognized religious holidays. Instructors are encouraged to avoid scheduling examinations on recognized major religious holidays. Please note that Jewish holidays require the cessation of work for the entire day, not simply during the time when services are held. Please remind students to declare their intention to observe religious holidays at the beginning of the semester. The Religious Holiday Policy and a list of major religious holidays and policies can be found on the Academic Calendar. Questions about religious accommodations can be directed to the Rachel Lord Center for Religious and Spiritual Life.

Course Work Outside of Class Time
Please avoid scheduling mandatory events and exams outside of scheduled class time, because these may conflict with other student commitments, including their other scheduled courses or employment. If you do schedule such events outside of regular class time, highlight them on your syllabus and during the first week of classes, offer alternative options, and know that flexibility may be needed with regard to student schedules and availability of rooms or facilities. Similarly, please be mindful of breaks during the semester (Fall Break, Thanksgiving Break). Don’t expect that students will be able to focus on their coursework during breaks.

Collegial Classroom Practice
Please keep in mind the following practices:

- Please start and end your class at the designated times.
- During class, please remain considerate of people working in nearby offices.
- Leave your classroom in its original seating configuration and in good condition – boards erased, seating straightened, course materials picked up. Please remind students to discard their trash.
- For those using the classroom computer:
If you need last minute adjustments to the audio-video, computer or projection system, or are experiencing technical issues while in class, call 207-725-3030 and press 2.

Before departing, “Log out” of the computer but do not turn off the computer.

Please do not unplug or relocate cables, as this affects other faculty users and can compromise the integrity of the system.

Working with Course Materials

Canvas Learning Management System

Canvas is Bowdoin’s Learning Management System and is the go-to platform for you and your students. Only students registered for a course have access to the course materials, which can be viewed, downloaded, and printed, as needed. You may also create links in Canvas to library-licensed e-books, database articles, and streaming audio and video. Fall 2024 courses will appear in the Unpublished Courses section of the Dashboard, where you may build and organize them before sharing them with your students. Once you publish a course, it will appear in the Published Courses section and will be available to your students. For assistance with Canvas, contact Jennifer Snow. For assistance with Panopto, the platform for videos linked to courses on Canvas, contact Paul Benham. A series of trainings and open labs are listed in CampusGroups.

Student Laptops and iPads

Bowdoin’s Digital Excellence Commitment provides a standard set of technologies to all students and provides training and other resources to faculty in order to incorporate the technology into their classes, if they choose to. Each incoming student will be given an Apple iPad Mini, an Apple Pencil 2, and a 13” MacBook Pro, and most returning students will have a 13” MacBook Pro and an iPad. As you consider using these technologies in your classes, don’t hesitate to contact the IT Service Desk for assistance (207-725-3030, servicedesk@bowdoin.edu). You might want to include related expectations in your syllabus, e.g., that students should bring charged devices to class or have specific software installed.

Library Resources

The College Library’s website is the gateway to the Library’s print and electronic collections, our extensive database and e-journal holdings, and the shared catalog of the Colby, Bates and Bowdoin (CBB) libraries, Compass. Course adoptions (both Required and Optional) will be pulled by library staff and added to course reserves. Faculty may request that additional books, audio, and film be placed on reserve at any time during the semester. Please use the Reserve forms to submit requests, including requests for the digitization of DVDs currently owned by the Library or requested for purchase. To request digital copies of print articles and book chapters owned by the library, please submit a Bowdoin Digital Delivery request. Due to copyright restrictions, the library is unable to scan books in their entirety. For reserve guidelines, library contacts, and more, see the Reserve-Guidelines page.

Faculty are encouraged to make use of the library’s extensive collection of e-books to support their courses. At the same time, it is important to be aware of potential license limitations before depending on a particular title as the primary access point for your students. Please contact Kate Wing or your Research Librarian to inquire about licenses for items you are interested in assigning as readings.

Virtual Bookstore

If you have adopted books for your courses, please ensure they are listed correctly in Classfinder by finding your course and clicking “Order Books.” If you have questions about course adoptions, please email Kate Wing. Some materials, such as art supplies and laboratory supplies, are sold by the Bowdoin Store. For questions about course supplies sold by the Bowdoin Store, contact Andrea Sehestedt. Note: First-year students will not have
their books until at least the second week of classes; please scan and post the first two weeks of reading assignments to Canvas.

Mindful Printing
Students are allocated a quota of up to 2,000 monochrome, double-sided pages. Single-sided or color printing will reduce their quota at a faster rate. Consider specifying those articles that you would like your students to print and making others optional. Students may be responsible for costs if they exceed their quota. You might encourage students to read and annotate electronic versions of articles. More information can be found on the OneCard office's printing and copying page.

Accessible Course Materials and Classroom Technology
Making curricular materials accessible can benefit many people. Implementing even a single change while updating course material and documents can go a long way. A few quick things you can do: make sure scanned documents are not blurry, contain highlights, notes, or cut-off text; include information in your syllabus about using Canvas Ally or Sensus Access to download alternative file formats of readings; use the accessibility checker in the Canvas text editor to identify easy to fix accessibility issues. In the classroom, use the lavalier microphones if available (even if you think you do not need to!) and check font size on presentation slides (size 24+ is best). Contact Juli Haugen, digital accessibility consultant in academic technology, for help with creating accessible materials or for any other questions about creating an accessible course in Canvas or available assistive technology. Join a digital accessibility workshop on Zoom.

Comment Cards
Comment Cards are a critical means by which we support our students. Please use a Comment Card early and often when you have concerns about, for example, a student’s repeated absence or difficulty completing course requirements, as this will alert their advisor and student dean. Often, a student who is having trouble meeting expectations in one course may be having trouble in other courses and other areas of their life. If a student performs poorly or fails a course, it is difficult to have a productive conversation with the student if no Comment Cards were submitted over the course of the semester. The Comment Card system is an effective way to make sure that students who need additional assistance receive it. We also encourage the use of Comment Cards to celebrate a student’s success. Find information and instructions on using Comment Cards on the Comment Card webpage.

Final Exams and Projects
As outlined in the Catalogue, final exams (or cumulative exams bearing the signature qualities of a final exam, by any other name) are to be given according to the schedule published each semester by the Registrar’s office. The date and time of final exams for courses can be found after Add/Drop II in the “My Classes” window on Polaris and in the Final Exam Assignments link on the Registrar’s website.

We in academic affairs – the dean, the associate deans, and all our staff – are here to support you throughout the coming year. You may e-mail, call, or message any one of us through Teams.

Thank you for all you do for your students and for the College.
