Course Synopsis

Oil, diamonds, gold... riches in the midst of poverty. How can Africa boast so many natural resources and yet remain the poorest continent on earth? What is the “resource curse”? This course will begin by putting Africa in the context of global resource extraction, oil in particular. It will then establish Africa’s long pre-colonial experience with trade in iron, gold, salt, and slaves. The colonial period deepened the reliance of many territories on specific resources, a pattern that continues to the present. The course will use Burkina Faso as a specific example of gold extraction, contrasting industrial and artisanal mining. A connection with a local Burkinabe gold miner will give the class a window into this way of life. Modern streams of prospectors throughout West Africa echo the California Gold Rush, but with important distinctions. An introduction to political science, it will highlight the interplay between national and foreign governments, international and domestic firms, local and migrant prospectors as they vie for access to valuable resources. Students will gain skills in library research, writing and revision, peer review and oral presentations.

Expectations

This course does not require any prior exposure to the topics of Africa or resource extraction. It does ask for diligent attention to reading and written assignments, participation in class and readiness to learn. I expect no student to plagiarize and all to adhere strictly to the Academic Honor Code: <http://www.bowdoin.edu/studentaffairs/student-handbook/college-policies/index.shtml>

Academic Resources

- *Center for Learning and Teaching: Writing Project Workshops*

Writing Assistants are available in the Writing Workshop to assist you at any phase of your writing process. A Writing Assistant can help you focus your ideas and map out a draft, read and respond to a completed draft, or edit and polish a nearly final draft. Be sure to allow adequate time after a conference to revise your work. You can reserve a 45-minute writing conference by going to the Writing Project website <http://www.bowdoin.edu/writing-project> and following the navigation links to the reservation calendar. To work on a paper longer than seven pages, it is wise to reserve two consecutive conference slots with the same Writing Assistant.
