Warning Concerning Copyright Restrictions

The Doctrine of "Fair Use" under the U.S. copyright law, *in limited situations*, permits the use of a copyrighted work, including reproducing portions of that work, without the copyright owner's permission. See the guidelines on the reverse side to determine if copyright permission is needed. If the materials need copyright permission, contact the publisher, copyright holder, or a copyright permissions company (i.e. Copyright Clearance Center) to request permission.

The Copy Center assumes that all materials accompanying a signed work order form have either been granted permission to photocopy by the copyright holder or does not need permission. The Copy Center does not determine if copyright permission is needed, obtain copyright permission, or verify that the permission has been granted.
