The Latin text quoted on the preceding page has introduced Bowdoin's Commencement Program since August 21, 1822. The names of the twenty-four graduates of the Class of 1822 were, for the most part, also translated into Latin for the program. In the early years of the College, each graduating senior was required to deliver a Commencement "part," an oration on ancient or modern topics, which was frequently given in one of the classical languages, Latin, Greek, or Hebrew. The final Latin oration was given in 1893, but the tradition of Latin survives in the language used to dedicate the Commencement Exercises and to confer the bachelor of arts degree. The translation below was provided by Barbara Weiden Boyd, Henry Winkley Professor of Latin and Greek.

May it be good, felicitous, and well-omened:*

To Paul LePage, esteemed Governor;

to the Representatives and Senators

who personally preside over the arts and letters for the State of Maine;

and to the honorable and respected Trustees of Bowdoin College;

to Barry Mills, distinguished President;

to the entire academic senate; to the venerable religious leaders;

in short, to all patrons of the human race everywhere,

the young people hereby initiated into the arts and letters

most humbly dedicate these exercises.

Held in a gathering of Bowdoin College, in Brunswick, in the State of Maine,

on the ninth day before the Kalends of June, in the 2014th year of our well-being

and in the 238th year of the authority of the United States of America.

* An ancient Roman formula used at the outset of a ritual to ensure its success.

DEGREES

This ancient formula is used by the President in conferring degrees:

Candidati pro gradu baccalaureali, assurgite.

Vir honorande, hosce iuvenes, quos censeo idoneos primum ad gradum in artibus, nunc tibi offero, ut a te instructus, eos ad gradum istum admittam. Placetne? (Placet.)

Pro auctoritate mihi commissa, admitto vos ad primum gradum in artibus, et dono et concedo omnia iura, privilegia, honores atque dignitates, ad gradum istum pertinentia.

In cuius testimonium hasce membranas litteris scriptas accipite.

Candidates for the Baccalaureate degrees will rise.

(To the Chair of the Board of Trustees)

Honored sir, these young people whom I deem worthy of the first degree in Arts, I now present to you, that, if you so direct, I may admit them to that degree.

Is such your will? (It is.)

(To the Candidates)

By virtue of the authority vested in me, I now admit you to the first degree in Arts and do grant and confer upon you all the rights, privileges, honors, and dignities pertaining to that degree.

In witness whereof, receive these diplomas.

NOTE: The Baccalaureate degrees are awarded individually, and the graduating class requests that there be no applause until the last degree is conferred.

At the Commencement Exercises, Bowdoin displays the College flag and the flags of the United States of America, the State of Maine, and the home or dual-citizenship countries or territories of graduating students—in 2014, Brazil, Canada, Colombia, Costa Rica, France, Germany, Haiti, Hong Kong Special Administrative Region, Israel, Japan, Kenya, Lithuania, Malaysia, Mexico, New Zealand, Panama, Philippines, People's Republic of China, Portugal, Republic of Korea, Rwanda, Saudi Arabia, South Africa, Sweden, Switzerland, Thailand, Tunisia, Uganda, United Kingdom, United States, Vietnam.

HONORANDS OF THE 2014 COMMENCEMENT

MARY L. BONAUTO, *Doctor of Laws* (L.L.D.)

Mary Bonauto has been the civil rights project director at Gay & Lesbian Advocates & Defenders (GLAD) in Boston since 1990. For more than twenty years she has been committed to ending discrimination on the basis of sexual orientation and gender identity, and she is a central figure in building the legal framework for marriage equality in the United States. A native of Newburgh, New York, and a graduate of Hamilton College in 1983 and Northeastern University School of Law in 1987, Bonauto began her legal career at a small law firm in Maine. At GLAD she was co-counsel for the landmark decision by the Vermont Supreme Court to allow same-sex civil unions. She has been a clear and steady voice for ending discrimination in marriage, despite occasional disappointments and setbacks over the past decade. Largely through her long-term strategic view of the legal landscape, her legal skill, and her perseverance, Bonauto accounts for many of the recent victories at the ballot box, in state and federal courts, and in state legislatures on the issue of marriage equality.

CHRISTOPHER R. HILL '74, *Doctor of Laws* (L.L.D.)

Ambassador Christopher Hill '74 is currently the dean of the Josef Korbel School of International Relations at the University of Denver. After his graduation from Bowdoin, he served in the Peace Corps in Cameroon for two years. He joined the U.S. State Department in 1977. Hill is a former career diplomat, having been nominated as ambassador four times by three different presidents. Among his posts were special assistant to the president and a senior director on the staff of the National Security Council, special envoy to Kosovo, ambassador to Macedonia, ambassador to Poland, ambassador to the Republic of Korea (where he led the U.S. delegation to the Six-Party Talks on North Korea's nuclear program), and ambassador to Iraq. Hill is one of the most accomplished and experienced U.S. diplomats of his generation, having been posted in global "hot spots" where the stakes were especially high. He received the State Department's Distinguished Service Award for his work on Bosnia, and in 2003 he was awarded Bowdoin's Gordon S. Hargraves '19 Preservation of Freedom Prize.

RICHARD O. PRUM, *Doctor of Science* (Sc.D.)

Richard O. Prum is the William Robertson Coe Professor of Ornithology, curator of ornithology, and head curator of vertebrate zoology at the Peabody Museum at Yale University. He earned an A.B. from Harvard in 1982 and a Ph.D. from the University of Michigan in 1989. From 1991 to 2003, he was a member of the faculty of the department of ecology and evolutionary biology at the University of Kansas. His research contributions are extensive, ranging from the evolution of feathers to coloration that arises from the physical properties of nanometer-scale biological structures. The description of his research for his 2009 MacArthur Foundation Award says, in part, “Whatever the phenomenon under study, Prum habitually synthesizes concepts from disparate fields and follows surprising paths to reach carefully reasoned conclusions. His research to date raises the profile of ornithological studies in several fundamental aspects of biology, and he continues to open new frontiers with each subsequent project.” Prum is the director of the Franke Program in Science and the Humanities at Yale, a new initiative that encourages collaborative teaching and research across diverse disciplines.

HARRIET WALLBERG, *Doctor of Humane Letters* (L.H.D.)

Dr. Harriet Wallberg is a professor of physiology at the Karolinska Institutet in Stockholm, Sweden, one of the world’s premier medical research facilities. From 2004 to 2012, she was the president of and the first woman to lead the Institutet. She is a member of the Nobel Assembly that selects the Nobel Laureates each year in physiology and medicine. She began her medical career in the 1970s and earned medical and doctoral degrees from the Karolinska Institutet. Wallberg is a pioneer in the field of research on the link between physiology and diabetes. She has served as Secretary General of the Swedish Medical Research Council and as a member of the International Science and Technology Forum, the International Scientific Advisory Council to the government of Singapore, the Swedish Government’s Globalization Council, and the Delegation for Clinical Research at the Swedish Ministry of Health. Among her many honors is the King of Sweden’s Gold Medal for distinguished achievement in medical education and research.

ACADEMIC APPAREL

The formal academic attire that distinguishes faculty and graduates at academic ceremonies is a symbol at once vertical and horizontal. It stretches back into history, to the roots of academic institutions, while at the same time it forms a bond of union among contemporary academic scholars.

The gown, cap, and hood, which would certainly seem quaint today if worn on our city streets, were originally the ordinary apparel of our medieval ancestors. The gowns varied in elegance according to the rank and wealth of the owners, and the hood had the practical function of being pulled over the head for warmth. Many of the medieval universities had strict rules on the subject; at Oxford, for example, the master of arts had to swear that he owned the dress prescribed for his degree and that he would wear it on all proper occasions. Undergraduates were required to wear their gowns whenever they appeared in the public street. After the sixteenth century in Europe different styles prevailed, but the older style was retained for certain legal, official, clerical, and, especially, academic uses.

In America the gown has been used to some extent since colonial times. It was only in the late nineteenth century, however, that widespread interest—sparked perhaps by the observance in 1886 of the 250th anniversary of the founding of Harvard—brought about several developments. In 1887 an enterprising member of the graduating class of Williams College designed academic gowns for the graduates to wear at the Commencement ceremony. The garb was significant and dignified; it was both traditional and democratic; it answered a need, and it quickly became popular. In 1895 an intercollegiate code, standardizing

the design and the color of each part of the academic regalia, was accepted by nearly all American colleges and universities.

The gown is usually black, and the cut of the sleeves differs for bachelors, masters, and doctors. In addition, the doctor's gown has panels of velvet (usually black) down the front and on the sleeves.

The cap is generally black, with a tassel, which is either black or the color of the field of study; a doctor's may be gold. The most common style of cap is the Oxford "mortar board," with a square flat top, but some variations are permitted.

The hood is the most distinctive part of the costume. It is made of black and trimmed with velvet. Both the length of the hood and the width of the trim vary with the level of the degree, the doctor's being the longest and having the widest velvet border. The color of the velvet indicates the field of study in which the degree is earned: for example, white for arts and letters (bachelor of arts), dark blue for philosophy, brown for fine arts, golden yellow for science, scarlet for theology. The lining of the hood is the color and style of the university that confers the degree; these are all specified in the standard code of the American Council on Education. Bowdoin College's lining is white and green to symbolize the Bowdoin pines.

Whatever the degree or university, those who don the gown and hood symbolically take their places in the long procession of scholars who have pursued truth and learning and passed it on to others. The consciousness of that fellowship is at once a reward for past efforts and an inspiration for the future.

RAISE SONGS TO BOWDOIN

Words by K. C. M. Sills, Class of 1901

New Lyrics by Anthony Antolini '63

Music by C. T. Burnett

Arranged by Thornton W. Allen

Raise songs to Bowdoin, praise her fame,
And sound abroad her glorious name;
To Bowdoin, Bowdoin lift your song,
And may the music echo long
O'er whispering pines and campus fair
With sturdy might filling the air.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.

While now amid thy halls we stay
And breathe thy spirit day by day,
Oh may we thus full worthy be
To march in that proud company
Of poets, leaders and each one
Who brings thee fame by deeds well done.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.
