DEGREES

The Latin text quoted on the preceding page has introduced Bowdoin's Commencement Program since August 21, 1822. The names of the twenty-four graduates of the Class of 1822 were, for the most part, also translated into Latin for the program. In the early years of the College, each graduating senior was required to deliver a Commencement "part," an oration on ancient or modern topics, which was frequently given in one of the classical languages, Latin, Greek, or Hebrew. The final Latin oration was given in 1893, but the tradition of Latin survives in the language used to dedicate the Commencement Exercises and to confer the bachelor of arts degree. The translation below was provided by Jennifer Clarke Kosak, Associate Professor of Classics.

May it be good, felicitous, and well-omened:*

To Paul LePage, esteemed Governor;

to the Representatives and Senators

who personally preside over the arts and letters for the State of Maine;

and to the honorable and respected Trustees of Bowdoin College;

to Clayton Rose, distinguished President;

to the entire academic senate; to the venerable religious leaders;

in short, to all patrons of the human race everywhere,

the young people hereby initiated into the arts and letters

most humbly dedicate these exercises.

Held in a gathering of Bowdoin College, in Brunswick, in the State of Maine,

on the seventh day before the Kalends of June, in the 2018th year of our well-being

and in the 242nd year of the authority of the United States of America.

* An ancient Roman formula used at the outset of a ritual to ensure its success.

This ancient formula is used by the President in conferring degrees:

Candidati pro gradu baccalaureali, assurgite.

Femina honoranda, hosce iuvenes, quos censeo idoneos primum ad gradum in artibus, nunc tibi offero, ut a te instructus, eos ad gradum istum admittam. Placetne? (Placet.)

Pro auctoritate mihi commissa, admitto vos ad primum gradum in artibus, et dono et concedo omnia iura, privilegia, honores atque dignitates, ad gradum istum pertinentia.

In cuius testimonium hasce membranas litteris scriptas accipite.

Candidates for the Baccalaureate degrees will rise.

(To the Chair of the Board of Trustees)
Honored madam, these young people whom I deem worthy of the first degree in Arts, I now present to you, that, if you so direct, I may admit them to that degree. Is such your will? (It is.)

(To the Candidates)
By virtue of the authority vested in me, I now admit you to the first degree in Arts and do grant and confer upon you all the rights, privileges, honors, and dignities pertaining to that degree.

In witness whereof, receive these diplomas.

NOTE: The Baccalaureate degrees are awarded individually, and the graduating class requests that there be no applause until the last degree is conferred.

At the Commencement Exercises, Bowdoin displays the College flag and the flags of the United States of America, the State of Maine, and the home or dual-citizenship countries or territories of graduating students—in 2018, Australia, Brazil, Canada, People's Republic of China, Denmark, France, Germany, Ghana, Honduras, Hong Kong SAR, India, Ireland, Italy, Japan, Jordan, Kenya, Lithuania, Luxembourg, Mexico, Netherlands, Philippines, Poland, Republic of Korea, Spain, Sweden, Switzerland, Thailand, United Kingdom, and Vietnam.

HONORANDS OF THE 2018 COMMENCEMENT

CHIMAMANDA NGOZI ADICHIE, *Doctor of Letters (LittD)*

Chimamanda Ngozi Adichie grew up on the campus of the University of Nigeria, Nsukka, where her father was a professor and her mother the first female registrar. She entered the university to study medicine and pharmacy, but left for the US at nineteen. Adichie graduated *summa cum laude* from Eastern Connecticut State University with a degree in communication and political science, and subsequently received a master's in creative writing from Johns Hopkins and a master of arts in African history from Yale. Adichie's work has been translated into over thirty languages. Her first novel, *Purple Hibiscus*, won the Commonwealth Writers' Prize, and her second novel, *Half of a Yellow Sun*, won the Orange Prize, now the Baileys Women's Prize for Fiction. In 2008, Adichie earned a coveted MacArthur "Genius Grant" Fellowship. Her novel *Americanah* received the US National Book Critics Circle Award and was named one of the *New York Times'* Top Ten Best Books of 2013. Adichie's 2009 TED Talk, *The Danger of a Single Story*, is one of the top-ten most-viewed TED Talks, with over five million views. Her 2012 TED talk, *We Should All Be Feminists*, was published as a book in 2014. Her most recent book is *Dear Ijeawele, or a Feminist Manifesto in Fifteen Suggestions*.

THOMAS R. CECH, *Doctor of Science (SD)*

Thomas R. Cech is a Nobel Prize-winning chemist, former president of the Howard Hughes Medical Institute, and distinguished professor and director of the Biofrontiers Institute at the University of Colorado. After earning his undergraduate degree at Grinnell College and his PhD from the University of California–Berkeley, he did postdoctoral research at the Massachusetts Institute of Technology and then joined the faculty of the University of Colorado–Boulder. In 1982 Cech and his research group discovered self-splicing RNA in *Tetrahymena*, providing the first exception to the long-held belief that biological reactions are always catalyzed by proteins. Cech became a Howard Hughes Medical Institute investigator in 1988 and distinguished professor of chemistry and biochemistry in 1990. From 2000 to 2009, he served as president of the Howard Hughes Medical Institute, the largest private biomedical research organization in the US. He has now returned to full-time research and teaching at the University of Colorado–Boulder. Cech's work has been recognized by many national and international awards and prizes in addition to the Nobel Prize, including the Heineken Prize of the Royal Netherlands Academy of Sciences, the Albert Lasker Basic Medical Research Award, the National Medal of Science, and election to the US National Academy of Sciences.

SUSAN E. RICE, *Doctor of Laws (LLD)*

Susan E. Rice, who has deep family ties to Bowdoin, served as US national security advisor and permanent representative to the United Nations. As national security advisor, she led the National Security Council staff, chaired the National Security Principals Committee, provided the president with daily security briefings, and was responsible for all aspects of the administration's foreign and national security policy, as well as all diplomatic, intelligence, homeland security, and military efforts. As a member of President Obama's cabinet, Rice worked to advance US interests, defend universal values, strengthen the world's security and prosperity, and promote respect for human rights. Rice is currently distinguished visiting research fellow at the School of International Service, American University, and a fellow at the Belfer Center for Science and International Affairs at Harvard's Kennedy School of Government. Rice earned her MA and PhD in international relations at Oxford University, where she was a Rhodes Scholar, and her BA in history with honors at Stanford University. Her mother, the late Dr. Lois Dickson Rice, received a Bowdoin honorary degree in 1984, while four uncles and two cousins are Bowdoin alumni.

HONORS IN MAJOR SUBJECTS

The Departments of Art, Biology, Chemistry, Computer Science, Earth and Oceanographic Science, English, History, Mathematics, Music, Psychology, Romance Languages and Literatures, and Sociology and Anthropology and the Biochemistry, Environmental Studies, Gender, Sexuality, and Women's Studies, Latin American Studies, and Neuroscience Programs award only one level of departmental honors. Other departments award honors at the levels of Highest Honors, High Honors, and Honors, and the recipients are so designated. Honors project titles below have been edited to conform with Bowdoin style. Official titles of record are on file at Hawthorne-Longfellow Library.

ACADEMIC APPAREL

The formal academic attire that distinguishes faculty and graduates at academic ceremonies is a symbol at once vertical and horizontal. It stretches back into history, to the roots of academic institutions, while at the same time it forms a bond of union among contemporary academic scholars.

The gown, cap, and hood, which would certainly seem quaint today if worn on our city streets, were originally the ordinary apparel of our medieval ancestors. The gowns varied in elegance according to the rank and wealth of the owners, and the hood had the practical function of being pulled over the head for warmth. Many of the medieval universities had strict rules on the subject; at Oxford, for example, the master of arts had to swear that he owned the dress prescribed for his degree and that he would wear it on all proper occasions. Undergraduates were required to wear their gowns whenever they appeared in the public street. After the sixteenth century in Europe different styles prevailed, but the older style was retained for certain legal, official, clerical, and, especially, academic uses.

In America the gown has been used to some extent since colonial times. It was only in the late nineteenth century, however, that widespread interest—sparked perhaps by the observance in 1886 of the 250th anniversary of the founding of Harvard—brought about several developments. In 1887 an enterprising member of the graduating class of Williams College designed academic gowns for the graduates to wear at the Commencement ceremony. The garb was significant and dignified; it was both traditional and democratic; it answered a need, and it quickly became popular. In 1895 an intercollegiate code, standardizing the design and the color of each part of the academic regalia, was accepted by nearly all American colleges and universities.

The gown is usually black, and the cut of the sleeves differs for bachelors, masters, and doctors. In addition, the doctor's gown has panels of velvet (usually black) down the front and on the sleeves.

The cap is generally black, with a tassel, which is either black or the color of the field of study; a doctor's may be gold. The most common style of cap is the Oxford "mortar board," with a square flat top, but some variations are permitted.

The hood is the most distinctive part of the costume. It is made of black and trimmed with velvet. Both the length of the hood and the width of the trim vary with the level of the degree, the doctor's being the longest and having the widest velvet border. The color of the velvet indicates the field of study in which the degree is earned: for example, white for arts and letters (bachelor of arts), dark blue for philosophy, brown for fine arts, golden yellow for science, scarlet for theology. The lining of the hood is the color and style of the university that confers the degree; these are all specified in the standard code of the American Council on Education. Bowdoin College's lining is white and green to symbolize the Bowdoin pines.

Whatever the degree or university, those who don the gown and hood symbolically take their places in the long procession of scholars who have pursued truth and learning and passed it on to others. The consciousness of that fellowship is at once a reward for past efforts and an inspiration for the future.

RAISE SONGS TO BOWDOIN

Words by K. C. M. Sills, Class of 1901
New Lyrics by Anthony Antolini '63
Music by C. T. Burnett
Arranged by Thornton W. Allen

Raise songs to Bowdoin, praise her fame,
And sound abroad her glorious name;
To Bowdoin, Bowdoin lift your song,
And may the music echo long
O'er whispering pines and campus fair
With sturdy might filling the air.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.

While now amid thy halls we stay
And breathe thy spirit day by day,
Oh may we thus full worthy be
To march in that proud company
Of poets, leaders and each one
Who brings thee fame by deeds well done.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.
