The Latin text quoted above has introduced Bowdoin's Commencement Program since August 21, 1822. The names of the 24 graduates of the Class of 1822 were, for the most part, also translated into Latin for the program. In the early years of the College, each graduating senior was required to deliver a Commencement "part," an oration on ancient or modern topics, which was frequently given in one of the classical languages, Latin, Greek, or Hebrew. The final Latin oration was given in 1893, but the tradition of Latin survives in the language used to dedicate the Commencement Exercises and to confer the bachelor of arts degree. The translation below was provided by Barbara Weiden Boyd, Henry Winkley Professor of Latin and Greek.

May it be good, felicitous, and well-omened:

[an ancient Roman formula used at the outset of a ritual to ensure its success]

To John Baldacci, esteemed Governor;
to the Representatives and Senators
who personally preside over the arts and letters for the State of Maine;
and to the honorable and respected Trustees of Bowdoin College;
to Barry Mills, distinguished President;
to the entire academic senate; to the venerable religious leaders;
in short, to all patrons of the human race everywhere,
the young people hereby initiated into the arts and letters
most humbly dedicate these exercises.

Held in a gathering of Bowdoin College, in Brunswick, in the State of Maine,
on the fourth day before the Kalends of June, in the 2004th year of our well-being
and in the 228th year of the authority of the United States of America.

DEGREES

This ancient formula is used by the President in conferring degrees:

Candidati pro gradu baccalaureali, assurgite.

Vir honorande, hosce juvenes, quos censeo idoneos primum ad gradum in artibus, nunc tibi offero, ut a te instructus, eos ad gradum istum admittam. Placetne? (Placet.)

Pro auctoritate mihi commissa, admitto vos ad primum gradum in artibus, et dono et concedo omnia jura, privilegia, honores atque dignitates, ad gradum istum pertinentia.

In cujus testimonium hasce membranas litteris scriptas accipite.

Candidates for the Baccalaureate degrees will rise.

(To the Chair of the Board of Trustees) Honored sir, these young people whom I deem worthy of the first degree in Arts, I now present to you, that, if you so direct, I may admit them to that degree. Is such your will? (It is.)

(To the Candidates) By virtue of the authority vested in me, I now admit you to the first degree in Arts and do grant and confer upon you all the rights, privileges, honors, and dignities pertaining to that degree.

In witness whereof, receive these diplomas.

NOTE: The Baccalaureate degrees are awarded individually, and the graduating class requests that there be no applause until the last degree is conferred.

At the Commencement Exercises, Bowdoin displays the College flag and the flags of the United States of America, the State of Maine, and the home countries or territories of graduating international students — in 2004, Albania, Bulgaria, Canada, Egypt, Germany, Haiti, Japan, People's Republic of China, Portugal, Republic of Korea, Russia, Saudi Arabia, Switzerland, Thailand, Turkey, United Kingdom, and Vietnam.

HONORANDS OF THE 2004 COMMENCEMENT

EAVAN BOLAND
DOCTOR OF LETTERS

A native of Ireland and author of sixteen books, Eavan Boland has been described as Ireland's preeminent female poet. Coming from a poetic and literary tradition in which women are often passive subjects and symbols of the oppression of the Irish, Boland has given active voice to women through her writings. Her books of poetry include *Against Love Poems* (2001), *The Lost Land* (1998), *An Origin Like Water: Collected Poems 1967-1987* (1996), *In a Time of Violence* (1994), *Outside History: Selected Poems 1980-1990* (1990), *The Journey and Other Poems* (1986), *Night Feed* (1982), and *In Her Own Image* (1980). Boland is the recipient of the John Frederick Nims Award (2002), the International Poetry Centre Award (1997), the Lannan Award for Poetry and the Ireland-American Literature Award (both 1994), three Pushcart Prizes (1988, 1992, 1996), three Poetry Book Society Choices (1986, 1990, 1994), and the 1983 Award of the Irish-American Cultural Foundation, among many other honors. She received a B.A. from Trinity College in Dublin in 1966 and received the Irish Arts Macaulay Fellowship in 1967.

RICHARD GOLDSTONE
DOCTOR OF LAWS

Former South African Constitutional Court Justice Richard Goldstone is a champion of international justice and human rights, and is the world's first international war crimes prosecutor. He served as a justice of the South African Constitutional Court from 1994 to 2003. A longtime opponent of apartheid in South Africa, Justice Goldstone served from 1991 to 1994 as chair of the Commission of Inquiry Regarding the Prevention of Public Violence and Intimidation in South Africa, which became known as the Goldstone Commission. He served as the chief prosecutor of the United Nations International Criminal Tribunals for the former Yugoslavia and Rwanda, chaired a group of international experts that drafted a Declaration of Human Duties and Responsibilities for the director general of UNESCO, and chaired the international independent inquiry on Kosovo. In December 2001 he was appointed co-chair of the International Task Force on Terrorism established by the International Bar Association.

Goldstone received his law degree from the University of the Witwatersrand in Johannesburg, South Africa, in 1962. He is the author of *On Humanity*, a memoir of his efforts on behalf of human rights.

SHULAMIT RAN
DOCTOR OF MUSIC

Composer, pianist, and educator Shulamit Ran won the 1991 Pulitzer Prize for the work *Symphony*. A native of Israel, she studied piano and composition in the U.S. on scholarships from the Mannes College of Music in New York and the America Israel Cultural

Foundation. She has been a member of the University of Chicago faculty since 1973. Ran has been awarded most major honors given to composers in the U.S., including two fellowships from the Guggenheim Foundation, and grants and commissions from the Koussevitzky Foundation. Her music has been performed by leading orchestras including the Chicago Symphony, the Cleveland Orchestra, the Philadelphia Orchestra, the Israel Philharmonic, and the New York Philharmonic. From 1990 to 1997 she was composer-in-residence with the Chicago Symphony Orchestra, and from 1994 to 1997 she was composer-in-residence with the Lyric Opera of Chicago, where her residency culminated in the much-acclaimed premiere of her first opera *Between Two Worlds (The Dybbuk)*.

DOROTHY SCHWARTZ
DOCTOR OF HUMANE LETTERS

Dorothy Schwartz, executive director of the Maine Humanities Council, has been a strong advocate for education as a teacher, college professor, printmaker and graphic artist, advisor to state government, and administrator. Schwartz has served on many state committees and task forces in Maine, and since 1985 has led the Maine Humanities Council, the state's affiliate of the National Endowment for the Humanities. Under her direction, the council has become a national leader in innovative and effective programming to help people of all ages and educational levels deepen their understanding of themselves, their communities, and the world. A graduate of Smith College (A.B., M.A.T.), Dorothy Schwartz has maintained her standing as an artist in her own right with group shows and one-person exhibitions. Her work has also been included in a traveling international show of hand-printed books. Schwartz received the 2001 Distinguished Achievement Award from the University of Southern Maine and the 2003 Deborah Morton Award from the University of New England.

TORSTEN N. WIESEL
DOCTOR OF SCIENCE

Torsten N. Wiesel is president emeritus of The Rockefeller University. He received his M.D. from the Karolinska Institute in Stockholm, Sweden, in 1954. His interest in understanding the pathways of the brain led him to the United States in 1955 to study neurophysiology at Johns Hopkins University and later to Harvard Medical School, where he became chair of the department of neurobiology. In 1981 he received the Nobel Prize in medicine for his long-term research on how the brain processes visual information. In 1983 he joined The Rockefeller University faculty, and he served as president from 1991 to 1998. Since 1994 he has served as chair of the National Academy of Science's Committee on Human Rights, and is a member and former chair of the Human Rights Watch Arms Division Committee. Among his many other current activities, he serves on the board of directors of the McGovern Institute for Brain Research, and is chairman of the board of governors of the New York Academy of Sciences.

HONORS IN MAJOR SUBJECTS

The Departments of Art, Biology, Chemistry, English, Geology, History, Mathematics, Music, Psychology, Romance Languages, and Sociology and Anthropology, and the Biochemistry, Environmental Studies, Latin American Studies, Neuroscience, and Women's Studies Programs award only one level of departmental honors. Other departments award honors at the levels of Highest Honors, High Honors, and Honors, and the recipients are so designated.

ACADEMIC APPAREL

The formal academic attire that distinguishes faculty and graduates at academic ceremonies is a symbol at once vertical and horizontal. It stretches back into history, to the roots of academic institutions, while at the same time it forms a bond of union among contemporary academic scholars.

The gown, cap, and hood, which would certainly seem quaint today if worn on our city streets, were originally the ordinary apparel of our medieval ancestors. The gowns varied in elegance according to the rank and wealth of the owners, and the hood had the practical function of being pulled over the head for warmth. Many of the medieval universities had strict rules on the subject; at Oxford, for example, the master of arts had to swear that he owned the dress prescribed for his degree and that he would wear it on all proper occasions. Undergraduates were required to wear their gowns whenever they appeared in the public street. After the sixteenth century in Europe different styles prevailed, but the older style was retained for certain legal, official, clerical, and, especially, academic uses.

In America the gown has been used to some extent since colonial times. It was only in the late nineteenth century, however, that widespread interest — sparked perhaps by the observance in 1886 of the 250th anniversary of the founding of Harvard — brought about several developments. In 1887 an enterprising member of the graduating class of Williams College designed academic gowns for the graduates to wear at the Commencement ceremony. The garb was significant and dignified; it was both traditional and democratic; it answered a need, and it quickly became popular. In 1895 an intercollegiate code, standardizing the design and the color of each part of the academic regalia, was accepted by nearly all American colleges and universities.

The gown is usually black, and the cut of the sleeves differs for bachelors, masters, and doctors. In addition, the doctor's gown has panels of velvet (usually black) down the front and on the sleeves.

The cap is generally black, with a tassel which is either black or the color of the field of study; a doctor's may be gold. The most common style of cap is the Oxford "mortar board," with a square flat top, but some variations are permitted.

The hood is the most distinctive part of the costume. It is made of black and trimmed with velvet. Both the length of the hood and the width of the trim vary with the level of the degree, the doctor's being the longest and having the widest velvet border. The color of the velvet indicates the field of study in which the degree is received: for example, white for arts and letters (bachelor of arts), dark blue for philosophy, brown for fine arts, golden yellow for science, scarlet for theology. The lining of the hood is the color and style of the university that confers the degree; these are all specified in the standard code of the American Council on Education. Bowdoin College's lining is white and green to symbolize the Bowdoin pines.

Whatever the degree or university, those who don the gown and hood symbolically take their places in the long procession of scholars who have pursued truth and learning and passed it on to others. The consciousness of that fellowship is at once a reward for past efforts and an inspiration for the future.

RAISE SONGS TO BOWDOIN

Words by K.C.M. Sills, Class of 1901

New Lyrics by Anthony Antolini '63

Music by C.T. Burnett

Arr. by Thornton W. Allen

Raise songs to Bowdoin, praise her fame,
And sound abroad her glorious name;
To Bowdoin, Bowdoin lift your song,
And may the music echo long
O'er whispering pines and campus fair
With sturdy might filling the air.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.

While now amid thy halls we stay
And breathe thy spirit day by day,
Oh may we thus full worthy be
To march in that proud company
Of poets, leaders and each one
Who brings thee fame by deeds well done.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.
