Thursday, Oct. 30 8:00 pm
Chase Barn – Boody-Johnson House

Meet with ES faculty, staff and students.
Hear about ES courses and other opportunities in Environmental Studies.
Learn how you can combine the major with off-campus study and fellowships.
Enjoy some ice cream and coffee.
Questions– Contact Eileen Johnson at ejohnson@bowdoin.edu

Green Corps
Are you interested in the environment?  Want to make a difference?
Green Corps is the non-profit Field School for Environmental Organizing, founded by leading environmentalists in 1992 to train environmental organizers. Our program includes intensive classroom training, hands-on experience running urgent environmental campaigns, and placement in permanent positions with leading environmental and social change groups.

Job: 2009/2010 Field School for Environmental Organizing
Green Corps will be conducting open interviews in Lamarche Gallery on Friday, October 17th.  Sign up through eBear.  Come to the information session to learn more!
OFF CAMPUS EVENTS

**An Environmental History of The Androscoggin River**
Wednesday, Oct 15
7:00pm
Frontier Café and Cinema
Open To The Public, Free

The presentation begins with a brief look at the geology of the river “why it was so good for industrial uses” and moves quickly through the Pre-Colonial and Colonial periods with its main focus on industrial uses of the river. The presentation is intertwined with personal observations from a forth generation Androscoggin River Valley resident, Neil Ward of Leeds, and how the use of the river has impacted his family. The presentation moves through a discussion of recent legislation that continues to impact the river, his family, and the entire river valley. It concludes with the question; where do we go from here? [http://www.explorefrontier.com/index.php/film-a-event-schedule](http://www.explorefrontier.com/index.php/film-a-event-schedule)

**U.S. Senator Delivers Speech on Environmental Priorities for the 21st Century**
Friday, October 17 3:30 pm
Hannaford Hall, USM Campus, Portland

Join us for an important address by the Honorable Sheldon Whitehouse, U.S. Senator from Rhode Island, who will outline his environmental priorities for the 21st century. He is speaking in conjunction with the opening of the Muskie School's new home and KINDLE: Northern New England Bioneers, a sustainability and social justice conference being held on campus that weekend. The senator's speech begins at 3:30 in Hannaford Hall and is free and open to the public.

**Kindle Conference Highlights Sustainability Innovations**
On October 17-19, the Muskie School is co-hosting KINDLE: Northern New England Bioneers, a sustainability and social justice conference that features workshops by our own experts from the Casco Bay Estuary Partnership and the Environmental Finance Center. There are exclusive pricing opportunities for our faculty, staff, students, and alumni. Visit the kindle website for more information: [http://www.kindledinme.com/registration.php](http://www.kindledinme.com/registration.php)

**“TROUBLE THE WATER”**
Friday-Saturday, Oct 17-18 at 1:00pm, 3:00pm, 5:00pm, 7:00pm & 8:45pm
Monday-Tuesday, Oct 20-21 at 1:00pm, 3:00pm & 5:00pm

Winner at 2008 Sundance Film Festival: Grand Jury Prize

This astonishingly powerful film is at once horrifying and exhilarating. Directed and produced by *Fahrenheit 9/11* and *Bowling for Columbine* producers Tia Lessin and Carl Deal, *Trouble the Water* takes you inside Hurricane Katrina in a way never before seen on screen - with Kimberly

“Irreplaceable – Wildlife in a Warming World”
Irreplaceable features photos of some of the world’s top nature photographers. From the icy tundras in the Arctic to humid wetlands in the Everglades, these photographers have captured the wonder and movement of plants and animals that call our country home. Art Opening: Fri, Oct 10, 5pm-8pm. On Display: Oct 6-25. At Frontier Café, Cinema & Gallery, 14 Maine St. Fort Andross - Mill 3, Brunswick. 725-5222.

INTERNSHIPS/RESEARCH

Conservation Finance Forum
The Conservation Finance Forum is pleased to announce the Conservation Capital in the Americas Conference and Student Competition. This is a great opportunity to participate in an international conference. Funds are available for a Bowdoin student to attend this conference in Chile.

The Conservation Capital in the Americas Conference will be held January 17 through 19, 2009, in Valdivia, Chile, and will explore some of the most effective practices and promising innovations in the field of conservation finance. Approximately 100 invited conservation practitioners, educators and students from North, Central, and South America will participate. The conference includes a student competition to identify, assemble, and support emerging leaders in conservation finance. Students selected on the basis of essays on conservation finance will be awarded the funded opportunity to attend the conference.

To access the competition application information, please visit the Forum website: `http://www.conservationfinanceforum.org/competition.html`

Applications will be accepted September 2 through October 20, 2008. For further inquiries please contact:
- Jim Levitt at James_Levitt@harvard.edu
- Elizabeth Reardon at studentcompetition@conservationfinanceforum.org

Climate change and the future of the Northern Forest
Northern Forest Alliance 2008 Climate Change Conference
November 1 and 2, 2008; day long events
Dartmouth College, Hanover, New Hampshire
Note: Registration and lodging are at no cost to Bowdoin students

Who should attend this conference?
Undergraduate students concerned about the impacts of climate change on the Northern Forest.

Why should you attend?
- Learn from experts in the field
- Develop the best emission reduction options for your campus
- Take action to enhance the future of the Northern Forest
- Contact Shelly Martin to register at smartin@nfainfo.org or at 802.253.8227 ext. 13

Visit the website at www.northernforestalliance.org).

**A Call to (R)(e)volution!**
Award-winning literary journal offers New Terrain Award and $500 prize for undergraduate essay

Whole Terrain, the nationally renowned literary journal of Antioch University New England, has established an annual award for outstanding undergraduate writers. We're seeking environmental essays from current undergraduates for this year's issue, (R)(e)volution. The writer of the winning essay will receive the New Terrain Award of $500 and have his or her work published in the upcoming issue.

Whole Terrain is challenging college students to write a reflective essay considering some of the following questions: What roles do revolution, evolution or both play in crises facing the planet? Do you envision ways to solve the ecological, economic and/or social challenges of the twenty-first century? How radical should solutions to environmental problems be? What can the evolution of species teach us about long-term societal change? Do lasting solutions come through evolution or only through revolution?

The deadline for submissions is January 1, 2009. Early submission is encouraged. Complete contest details and the online submission form are available at http://www.wholeterrain.org/award.cfm.

If you have questions or need assistance, please send us an email at whole_terrain@antiochne.edu with the subject header "New Terrain Award Submission."
