ON CAMPUS EVENTS

Imagining Place: Public lecture
Wednesday, April 7
7:30 p.m., Shannon Room, Hubbard Hall

What places in your life have most defined you? Join Coastal Studies Scholar and writer Jane Brox as she explores the ways in which memory and imagination contribute to our sense of place, and the personal and political implications of our commitments to significant places in our lives. Jane Brox is author of four books: Here and Nowhere Else, Five Thousand Days Like This One, Clearing Land: Legacies of the American Farm, and most recently, Brilliant: The Evolution of Artificial Light. She has received grants from the Guggenheim Foundation and the National Endowment for the Arts. Co-sponsored by the Department of English, the Coastal Studies Center, the Environmental Studies Program and the McKeen Center.

What will you be doing to celebrate Earth Day this year?
How about volunteering for Eco Service Day!
Saturday, April 17th 1- 4 PM

Volunteer for local non-profit organizations that help sustain Maine’s natural resources
Project Partners Include: The Bowdoin Organic Garden, Brunswick-Topsham Land Trust, Wolfe’s Neck State Park Bradbury Mountain State Park, Cathance River Education Alliance, Bowdoin’s Coastal Studies Center, Brunswick Town Commons, The Bowdoin’s Children’s Center. Volunteers will help with various activities such as trail building, trail clean up, seed planting & gardening.

Sign-up at SU Info desk today!
Sponsored by Bowdoin Outing Club, Environmental Studies, Evergreens, Joseph McKeen Center for the Common Good and Sustainable Bowdoin
Need more info? E-mail cpayson or mcroslan

CONTEST
Video Competition: How are YOU committed? (Posted 3/1)

How are YOU committed to reducing your carbon footprint? Students, faculty and staff around campus are taking action to reduce their energy use and help Bowdoin reach its goal of carbon neutrality by 2020. The How are YOU committed short film contest sponsored by the Climate Commitment Advisory Committee (CCAC) is your chance to show the rest of campus what you're doing to help out or what sustainability at Bowdoin means to you. The top five entries will receive prizes and all submissions will be shown at the 2nd Annual Locavore Dinner at Thorne on April 22nd.

All films must be submitted by 5:00 p.m. Thursday, April 8th.
If you need training, a video editing workshop will be offered April 2 in Coles 2 South. Sign up below. Contest winners will be notified by Friday, April 16th.

Each person who submits a film will receive a "Polar Bears Against Climate Change" T-shirt. Prizes include a one-year membership to Zip Car, a pair of roundtrip Amtrak tickets between Portland and Boston, a Bowdoin travel mug, and a Bowdoin organic grocery bag.
For entry rules, please visit: http://www.bowdoin.edu/sustainability/student-involvement/climate-matters/
OFF CAMPUS EVENTS

Maine Pays you to Save Energy- free workshop at FW Horch 56 Maine St, Brunswick
Thursday, April 8 7 PM

The Green Economy Conference
Tuesday, May 11, 2010 at the Hynes Convention Center, Boston, MA (posted April 5)
Advancing Green Technology, Green Businesses & Brands, Green Jobs & Sustainability Into New England’s Multicultural Markets
The Green Economy Conference (GEC) will equip green businesses, services and brands to develop and maintain a competitive edge. The GEC offers a progressive and engaging dialogue. The goal is to transform and stimulate the local green economy by bringing together leading thinkers and doers from diverse sectors, disciplines and perspectives to promote diversity/multiculturalism, sustainability, corporate responsibility and green jobs in New England. Attend progressive workshops and engage in unique networking opportunities with green leaders of today and tomorrow.
Visit www.greeneconomyboston.com for more details

Sustainable Energy Conference: Renewable Energy Solutions to Global Climate Change (Chewonki Foundation) (posted April 5)
Saturday, May 8, 2010, Wiscasset, ME
8:30 AM-4:30 PM

$55 before April 10.$65 after April 10. Lunch Included.
Open to the Public. For more information and to register: see the webpage:

As always, the conference will offer the latest on climate change science, as well as practical workshops for those interested in exploring ways of using renewable energy, efficiency technologies, and residential-scale green technology.

INTERNSHIPS / FELLOWSHIPS / JOBS
Marine Science Instructor Intern, Sanibel Sea School (posted 3-29)
Sanibel Island, FL
Sanibel Sea School is seeking Marine Science Instructor Interns to assist with our Summer Camp 2010 programs. We are a 501(c)(3) nonprofit dedicated to marine conservation through experiential education.
The Marine Science Instructor Intern is a full-time seasonal position (June 12 – September 10). Responsibilities include: Assist with the planning and delivery of summer camp programs, supervise young children (ages 6-13) in a variety of outdoor and marine environments, foster an appreciation for marine ecosystems and encourage campers to practice ocean stewardship, assist with the maintenance and upkeep of facilities and equipment.

Qualifications:
- Currently enrolled in college, with a background in Biology, Marine Biology, Ecology, Environmental Science, Early Childhood Education, Plant Biology, or some combination thereof.
- Have or be capable of obtaining certifications in CPR, First Aid, and Lifeguarding.
- A basic knowledge of the flora and fauna of Southwest Florida.
- Be a strong and competent swimmer, comfortable in outdoor settings and physically capable of leading groups of children in a variety of natural environments.
- Be capable of lifting 40 pounds and working in the sub-tropical conditions of Southwest Florida for eight-hour workdays.
- Have a desire to promote marine conservation by sharing your passion and knowledge of the natural world with students.

Application Materials: Please submit a letter of application explaining why you desire this job and what qualifies you for the position, along with your resume or CV and copies of college transcripts (they may be unofficial initially). Include contact information for three references able to elaborate on your capabilities to meet the minimum requirements. You can submit application materials by mail to: Sanibel Sea School, PO Box 1229, Sanibel, FL 33957; or you may submit documents electronically to jobs@sanibelseaschool.org. Inquiries may be made to Bruce Neill, Ph.D., Executive Director. For information, see the webpage: http://www.sanibelseaschool.com/index.html

Reminder: Marine Technology Society scholarships deadline April 15, 2010 (posted 3-29)
The Marine Technology Society (MTS) offers thousands of dollars worth of SCHOLARSHIPS to high school students, and undergraduate and graduate students who are studying marine science/engineering/technology fields. There are scholarships available for both MTS members and non-members. For a listing of available scholarships and applications, please visit our website: www.mtsociety.org/education/scholarships.aspx or feel free to contact us (michael.hall@mtsociety.org, suzanne.voelker@mtsociety.org, 410-884-5330) with any questions.

The Marine Technology Society is a not-for-profit professional society of ocean engineers, technologists, policy makers and educators. It is dedicated to the development and sharing of information and ideas about marine engineering and technology.

advancement. Starting salary $9.25/hour with a raise after successful 3 month review. Interviewing applicants until the position is filled. Please email a cover letter and your resume to info@fwhorch.com

For more information about F.W. Horch Sustainable Goods & Supplies, please visit us online at http://FWHorch.com/ or in downtown Brunswick.

Field Crew Members (6/9-8/27), Field Crew Leader (6/7-8/29), Data Analyst/Data Manager (May-October) posted 3-29
Project: Dynamics of subalpine tree populations.
Location: Field sites are on the slopes of Mt. Moosilauke. New Hampshire
Duties: Basic data collection on trees and other vegetation on mountain slopes. Hike to and from field sites. Occasional camping near more distant field sites may be necessary. Fieldwork continues in all but most extreme weather conditions. Rugged field clothes and personal gear required (provided by crew).
Qualifications: Extensive outdoor experience. Competence and comfort in subalpine field environment. Tolerance of inclement weather in the field. Reliability. Teamwork skills. Ability to focus and make precision measurements throughout the season. Personal management skills for punctuality, bunkhouse cleanliness, safety, etc. Prior field research experience, relevant coursework (forestry, ecology, other natural sciences), and knowledge of woody plants desirable.
Field season: June 9 through August 27, 2010. Crew commit to entire field season.
Stipend: $720 per two-week period. For the full season (6/9 to 8/27) this amounts to $4,176. Additional allowance of $8 per workday will be added to the stipend for food purchase (breakfast and lunch).
Housing and meals: Bunkhouse accommodation is provided, including weekends if needed, for entire field season. Dinners provided M-F (work days) at Moosilauke Ravine Lodge
http://www.dartmouth.edu/~doc/moosilauke/ravinelodge/ operated by Dartmouth College. Crew prepare breakfasts and lunches in basic facilities in small building near bunkhouse. Crew provide sleeping bag, sheets, towel etc.
Principal Investigator: David R. Peart, Dartmouth College, Dept. Biol. Sciences, Hanover, NH. Co-Principal Investigator: Peter A. Palmiotto, Antioch Univ. of New England, Dept. Env. Studies, Keene, N.H.
Applications: will be reviewed as soon as they are received, and positions filled on a rolling basis. Apply ASAP. Send letter of application, resume and names, addresses, telephone, and email addresses of three references who can be reached Feb-April 2010, to: ppalmiotto@antiochne.edu AND david.peart@dartmouth.edu

Intern with 1Sky (posted 4/5)

All hands on deck! 1Sky is a national climate campaign working to mobilize a broad base of support for climate change legislation in 2010 from across all sectors and communities in this country. And we're not stopping until we have the federal policy we need!

We’re looking for motivated people to intern in 2010 with the following departments this summer:

- **Organizing and Outreach.** This position will be focusing on local and national grassroots organizing. It may involve conference attendance and volunteer coordination; telephone, in-person, and e-mail outreach; organizing around national calls to action; and general departmental and office support. Interns will help coordinate 1Sky’s National Climate Precinct Captain program, assist with developing regional field strategy for action events, help organize local climate rallies, and track and organize collateral sent in to the office by activists all across the country.

- **Internet, Film and Media.** This person will provide support for online communications, including marketing, social networks, analytics, and creating digital media. Experience with HTML, photo editing tools, social networks, Google toolsets, blogging, or online organizing experience is a plus.
• **Policy.** Be involved with policy analysis and research, building relations with Capitol Hill, assisting in power-mapping, attending hearings, developing organizing materials, closely monitoring climate policy development, blogging, and general departmental and office support.

• **Development and General Support.** This highly organized person will assist in donor outreach, research on prospective donors, and donor communication, and provide general departmental and office support.

• **Communications.** You’ll assist in communicating with media outlets, distributing media advisories and press releases, creating documents, talking points, and blogs, pitch-calling, providing support at visibility events in D.C. and nationally, and providing general support.

If you are willing and able to learn new skills and strategies, enjoy working in a fast-paced atmosphere, have excellent written and verbal communication skills and are committed to taking action on climate change, we want you!

**Internship Dates**
*Summer:* June 7 – Aug. 20 (now accepting candidates)  
*Fall:* August - December

**Submissions:** Please submit a cover letter specifying which position you’re applying for, your resume, and contact information for three references to **internships@1sky.org.** Include the title of the internship you are applying for in the subject line.

**Compensation:** 1Sky has paid and unpaid internships available. Paid internships are highly selective and require answering four additional questions. *If you are interested in being considered for a paid internship, please send a separate document answering these questions:*

1. Explain why you think you are a good match for a particular internship listed above
2. Describe the nature of your economic need
3. Describe your commitment to diversity and inclusion in the environmental movement

**SUMMER INTERNSHIPS, US EPA NEW ENGLAND (REGION 1) (posted 4/5)**
You must be an enrolled student and have yet to finish your program of study to qualify for one of the posted positions. If you are interested in working for Region I EPA this Summer, go to: [www.epa.gov/ohr/student/summerregion1.htm](http://www.epa.gov/ohr/student/summerregion1.htm) and follow the directions at the end of the announcement you are interested in. If you have trouble with the link, please follow the following directions: Go to [www.epa.gov](http://www.epa.gov) → Careers → Student Opportunities → Student Summer Employment Opportunities → Opportunities in EPA Regional Offices → Region .1

**Foresight Immersion (posted 4/5)**
*June 16 – August 11, 2010*  
*Applications due April 12*
Don’t miss your chance to apply for the program that empowers emerging leaders with the experience, connections, and knowledge necessary to excel in the sustainability sector. Recent updates for the program, now in its eighth consecutive year, include:

**Explore Vancouver** (June 6-11)
Delve into the inner workings of climate innovation. This tour offers unique access to the change makers pioneering Vancouver’s role as a low emissions leader. Arrive in Chicago empowered to apply new insights to Immersion project challenges. Discounted fee available for summer participants. (Can also be undertaken as a stand-alone trip.) Download an application: [http://www.foresightdesign.org/vancouver](http://www.foresightdesign.org/vancouver)

**Pick a Project**
Learn first-hand the tenants of effective community engagement while creating a model sustainable
community plan. Or gain experience in sustainable product research and social entrepreneurship by
developing an innovative business platform. Other initiatives will involve developing deeper
understanding of and devising forward-thinking solutions to significant local issues for clients.
Experienced advisors will review and inform the process. Indicate your preferred project in your
application.

Apply for Scholarships
A limited amount of need-based financial assistance is now available. Email
immersion@foresightdesign.org for more information.

The Marine Program Associate will be a full-time position starting May 1, 2010 with competitive
compensation, commensurate with experience. Electronic application preferred. Please submit a letter of
application including a résumé, a writing sample, and three professional references to:

Attn: Crystal Anderson
Human Resources, Island Institute
P.O. Box 648, Rockland, ME 04841
canderson@islandinstitute.org

JOBS FOR SENIORS

CONTRACT ANNOUNCEMENT Fishery Data Analyst (posted 4/5)
The Cape Cod Commercial Hook Fishermen’s Association (CCCHFA) is a community fisheries
organization that aligns protection of the oceans with the economic interests of our historic fishing
community. We currently have an opening for a part-time Fishery Data Analyst.
CCCHFA is a progressive leader that promotes stewardship of coastal ecosystems through education,
research, and policy programs. Started in 1991 by a small group of Cape Cod commercial hook and
line fishermen, CCCHFA quickly developed into an organized voice for local fishermen. Their
theory was simple: that responsible fishing practices and conservative regulations would generate
healthy fish stocks and revitalize the region’s ailing fishing communities. CCCHFA supports a local
fishing cooperative. The cooperative is assembled to locally organize the catch of nearly 2 million
pounds of cod and other groundfish (like haddock and flounder).

The Fishery Data Analyst will be contracted immediately to work with CCCHFA staff and fishermen
members of the harvesting cooperative. It is preferred that the candidate would be located on Cape
Cod, Massachusetts. However, CCCHFA is open to discussing the possibility of filling the position
with a remote hire. Depending on the candidate, this position may be a consultancy or an hourly part
time staff position with no benefits. Compensation will be competitive, and commensurate with
experience. For more information, please visit: http://www.ccchfa.org/about/about_jobs.htm

Please send resume, desired rates, references, and cover letter to:
Melissa Sanderson, Assistant Director
mel@ccchfa.org
Cape Cod Commercial Hook Fishermen's Association
210-E Orleans Road, North Chatham, MA 02650

Program Associate, Andes Amazon Initiative, Gordon and Betty Moore Foundation (posted 4/5)
The Gordon and Betty Moore Foundation is a non-profit, grant making organization, dedicated to
advancing environmental conservation and leading edge science around the world, and to helping
improve the quality of life in the San Francisco Bay Area. Its vision is to create positive outcomes for future generations. For more information, please consult our website: www.moore.org.

The Program Associate position will provide program and administrative support for the Gordon and Betty Moore Foundation’s Andes Amazon Initiative. This position has a term limit of four years.

**Initiative Overview:** The Andes-Amazon Initiative’s goal is to conserve the Amazonian forests, which provide habitat for biodiversity and regulate the regional climate cycle. To achieve this goal, through the Foundation’s funds and the work of its Grantees, the Initiative must effectively manage 370 million hectares of forested landscapes. Protecting these areas will lead to the: maintenance of the climatologic function of the Amazon Basin, as measured by forest cover distributed among the six climate zones and protection of Amazonian biodiversity, as measured by the distribution of forested habitat among the eight major ecoregions and 13 major watersheds.
