*A Symposium Celebrating Community*

**Thursday, May 9, 2019**

**3:00-4:30 p.m.**

This symposium provides a public forum for students to share stories and learning from service and research projects they have carried out in schools, social service agencies, and cultural and environmental organizations.

As students expand their understanding of an issue, they also work to foster mutually beneficial ties between the campus and communities in which they work.
