The Latin text quoted on the preceding page has introduced Bowdoin's Commencement Program since August 21, 1822. The names of the twenty-four graduates of the Class of 1822 were, for the most part, also translated into Latin for the program. In the early years of the College, each graduating senior was required to deliver a Commencement "part," an oration on ancient or modern topics, which was frequently given in one of the classical languages, Latin, Greek, or Hebrew. The final Latin oration was given in 1893, but the tradition of Latin survives in the language used to dedicate the Commencement Exercises and to confer the bachelor of arts degree. The translation below was provided by Associate Professor of Classics on the Henry Johnson Professorship Fund and Associate Curator for the Ancient Collection in the Museum of Art Jim Higginbotham.

May it be good, felicitous, and well-omened:*

To Janet Mills, esteemed Governor;

to the Representatives and Senators

who personally preside over the arts and letters for the State of Maine;

and to the honorable and respected Trustees of Bowdoin College;

to Safa Zaki, distinguished President;

to the entire academic senate; to the venerable religious leaders;

in short, to all patrons of the human race everywhere,

the young people hereby initiated into the arts and letters

most humbly dedicate these exercises.

Held in a gathering of Bowdoin College, in Brunswick, in the State of Maine,

on the eighth day before the Kalends of June, in the 2024th year of our well-being

and in the 248th year of the authority of the United States of America.

* An ancient Roman formula used at the outset of a ritual to ensure its success.

DEGREES

The president uses an ancient formula, translated here from the original Latin, in conferring degrees:

Candidates for the Baccalaureate degrees will rise.

(To the Chair of the Board of Trustees)

Honored colleague, these young people whom the faculty deem worthy of the first degree in arts, I now present to you, so that, if you so direct, I may admit them to that degree.

Is this your will? (It is.)

(To the Candidates)

By virtue of the authority vested in me, I now admit you to the first degree in arts and do grant and confer upon you all the rights, privileges, honors, and dignities pertaining to that degree.

Being so admitted, you may now receive these diplomas.

Ancient formula in Latin:

Candidati pro gradu baccalaureali, assurgite.

Collega honoranda, hosce iuvenes, quos professores censent idoneos primum ad gradum in artibus, nunc tibi offero, ut a te instructus, eos ad gradum istum admittam.

Placetne? (Placet.)

Pro auctoritate mihi commissa, admitto vos ad primum gradum in artibus, et dono et concedo omnia iura, privilegia, honores atque dignitates, ad gradum istum pertinentia.

In cuius testimonium hasce membranas litteris scriptas accipite.

NOTE: The Baccalaureate degrees are awarded individually, and the graduating class requests that there be no applause until the last degree is conferred.

HONORANDS OF THE 2024 COMMENCEMENT

RYAN SPEEDO GREEN, *Doctor of Music (MusD)*

Ryan Speedo Green is a three-time Grammy-winning bass baritone opera singer and star of the Metropolitan Opera in New York City and the Vienna State Opera in Austria. Green is a two-time winner of the Beverly Sills Artist Award (2021 and 2023), created to help further the careers of rising stars by providing additional funding for vocal coaching, language study, travel costs, and other professional expenses. Among his many career highlights, he has appeared as Wotan in *Das Rheingold* with the Los Angeles Philharmonic, as King Heinrich in *Lohengrin* with both Deutsche Oper Berlin and Bayerische Staatsoper, and as Emile Griffith in *Champion* at the Metropolitan Opera. In 2019, Green was the recipient of Bowdoin's Henni and Harry Friedlander Award for the Common Good, presented to an individual who has overcome significant adversity in his or her life and gone on to make a highly significant contribution to the common good. In accepting the award on campus, Green described his impoverished childhood in southeastern Virginia, at one point living in a home pockmarked with bullet holes, and how he fell in love with opera at age fifteen on a school trip to the Metropolitan Opera House in New York, where he saw the great African American mezzo soprano Denyce Graves perform in *Carmen* and decided he, too, wanted to sing on that stage. He would go on to become a member of the Metropolitan Opera Lindemann Young Artist Development Program, and earn a bachelor's degree in music from the Hartt School of Music and a master's from Florida State University.

MARIA HINOJOSA, *Doctor of Humane Letters (LHD)*

Maria de Lourdes Hinojosa Ojeda is an award-winning journalist and founder of Futuro Media Group. Based in Harlem, Futuro Media is a multimedia journalism nonprofit committed to exploring American diversity. Among other projects, Futuro Media produces *Latino USA*, a public radio program and podcast hosted by Hinojosa and distributed nationwide by the Public Radio Exchange. In 2022, Hinojosa and the Futuro team won a Pulitzer Prize in audio reporting for the podcast series *Suave* profiling a juvenile lifer reentering society after more than thirty years of incarceration. Hinojosa is currently the Distinguished Journalist in Residence at her alma mater, Barnard College. On January 10, she was announced as the 2024 recipient of the Edward R. Murrow Lifetime Achievement Award, conferred by the Murrow School of Journalism at Washington State University. Hinojosa's previous awards include four Emmys, the John Chancellor Award, the Studs Terkel Community Media Award, two Robert F. Kennedy Awards, and the Ruben Salazar Lifetime Achievement Award. During a journalism career spanning more than three decades, Hinojosa has reported for CBS, CNN, NPR, PBS, and WNBC in New York City. She has been recognized by *People en Español* as one of the twenty-five most powerful Latina women. Hinojosa is the author of four books, the most recent of which is *Once I Was You: A Memoir of Love and Hate in a Torn America* (2020), which explores issues surrounding immigration in America through the lens of her family's personal experience.

DAVID J. ROUX, *Doctor of Humane Letters (LHD)*

David J. Roux is a trustee emeritus with whom Bowdoin and Maine share deep ties. A generous gift from Roux and his wife, Barbara, made possible the Roux Center for the Environment, which was completed in fall 2018. The Roux Center brings together faculty from across academic disciplines to encourage collaboration and creativity in the teaching and scholarship of the environment and further strengthens Bowdoin's position as a leader in this field of study. Roux's philanthropy and significant impact on Maine is also evident in the launch of the Roux Institute, a collaboration with Northeastern University, and the establishment of The Roux Family Center for Genomics and Computational Biology at Jackson Labs in Bar Harbor, where he served as board chair. He has also served on the boards of the National Audubon Society, the Environmental Defense Fund, and the Center for Advanced Study in the Behavioral Sciences at Stanford University. Roux is a cofounder and chairman of BayPine Capital. He previously cofounded and was chairman, co-CEO and co-managing partner of Silver Lake, a global private equity firm focused on technology and technology-enabled investments. He was formerly chairman and CEO of Liberate Technologies, executive vice president at Oracle Corporation, and senior vice president at Lotus Development. A graduate of Harvard College, Roux earned an MBA at the Harvard Business School and an MPhil at King's College, Cambridge University. Roux's extensive family connections to the College begin with his parents, Donald Roux '55 and Constance "Connie" Roux, who took classes at the College and was a sister of former Maine governor James B. Longley '48.

HONORS IN MAJOR SUBJECTS

The Departments of Art, Anthropology, Biology, Chemistry, Computer Science, Earth and Oceanographic Science, English, History, Mathematics, Music, Philosophy, Psychology, Romance Languages and Literatures, Sociology, and Theater and Dance and the Biochemistry, Environmental Studies, Gender, Sexuality, and Women's Studies, Latin American, Caribbean, and Latinx Studies, and Neuroscience Programs award only one level of departmental honors. The Department of Religion awards at the High Honors and Honors levels only. Other departments award honors at the levels of Highest Honors, High Honors, and Honors, and the recipients are so designated. Honors project titles below have been edited to conform with Bowdoin style. Official titles of record are on file at Hawthorne-Longfellow Library.

ACADEMIC APPAREL

The formal academic attire that distinguishes faculty and graduates at academic ceremonies is a symbol at once vertical and horizontal. It stretches back into history, to the roots of academic institutions, while at the same time it forms a bond of union among contemporary academic scholars.

The gown, cap, and hood, which would certainly seem quaint today if worn on our city streets, were originally the ordinary apparel of our medieval ancestors. The gowns varied in elegance according to the rank and wealth of the owners, and the hood had the practical function of being pulled over the head for warmth. Many of the medieval universities had strict rules on the subject; at Oxford, for example, the master of arts had to swear that he owned the dress prescribed for his degree and that he would wear it on all proper occasions. Undergraduates were required to wear their gowns whenever they appeared in the public street. After the sixteenth century in Europe different styles prevailed, but the older style was retained for certain legal, official, clerical, and, especially, academic uses.

In America the gown has been used to some extent since colonial times. It was only in the late nineteenth century, however, that widespread interest—sparked perhaps by the observance in 1886 of the 250th anniversary of the founding of Harvard—brought about several developments. In 1887 an enterprising member of the graduating class of Williams College designed academic gowns for the graduates to wear at the Commencement ceremony. The garb was significant and dignified; it was both traditional and democratic; it answered a need, and it quickly became popular. In 1895 an intercollegiate code, standardizing

the design and the color of each part of the academic regalia, was accepted by nearly all American colleges and universities.

The gown is usually black, and the cut of the sleeves differs for bachelors, masters, and doctors. In addition, the doctor's gown has panels of velvet (usually black) down the front and on the sleeves.

The cap is generally black, with a tassel, which is either black or the color of the field of study; a doctor's may be gold. The most common style of cap is the Oxford "mortar board," with a square flat top, but some variations are permitted.

The hood is the most distinctive part of the costume. It is made of black and trimmed with velvet. Both the length of the hood and the width of the trim vary with the level of the degree, the doctor's being the longest and having the widest velvet border. The color of the velvet indicates the field of study in which the degree is earned: for example, white for arts and letters (bachelor of arts), dark blue for philosophy, brown for fine arts, golden yellow for science, scarlet for theology. The lining of the hood is the color and style of the university that confers the degree; these are all specified in the standard code of the American Council on Education. Bowdoin College's lining is white and green to symbolize the Bowdoin pines.

Whatever the degree or university, those who don the gown and hood symbolically take their places in the long procession of scholars who have pursued truth and learning and passed it on to others. The consciousness of that fellowship is at once a reward for past efforts and an inspiration for the future.

RAISE SONGS TO BOWDOIN

Words by K. C. M. Sills, Class of 1901

New Lyrics by Anthony Antolini '63

Music by C. T. Burnett

Arranged by Thornton W. Allen

Raise songs to Bowdoin, praise her fame,
And sound abroad her glorious name;
To Bowdoin, Bowdoin lift your song,
And may the music echo long
O'er whispering pines and campus fair
With sturdy might filling the air.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.

While now amid thy halls we stay
And breathe thy spirit day by day,
Oh may we thus full worthy be
To march in that proud company
Of poets, leaders and each one
Who brings thee fame by deeds well done.
Bowdoin, from birth, our nurturer and friend
To thee we pledge our love again, again.
