What Round is your Group Eligible for?
Talk with others in your roommate group EARLY to find out their lottery points. You don’t want any surprises when your group isn't eligible for a round because one of your friends has 1 point so you all need to wait until Round 3 to select. See class standing (found in Polaris) and correlating lottery points on page two.

All of the steps below are completed in the Bricks and Beyond portal https://housing.bowdoin.edu

Create an Application
You must create an application first, then create a roommate group or be invited to join an existing group. Regardless of your class year, you can begin forming roommate groups on December 1.

Create a Roommate Group
If you are the "group leader", create your Roommate Group, search for and invite your friends to join. If you can't find them, they likely haven't created an application yet. Text them to do that! Deadlines by round to complete your Group:

- Round 1 (3 points) Fri. December 4 9:00AM
- Round 2 (2 & 3 points) Wed. December 9 9:00AM
- Round 3 (1, 2 & 3 points) Mon. December 14 9:00AM

Planning Sheet
Utilize the planning sheet on page two of this document.

Check your Timeslot
For each round all eligible Roommate Groups will be assigned a timeslot (a specific start time) when their Group leader is eligible to login and select a room for their Group. Watch for an email with your timeslot after each round closes.

Select your Room
Prior to your timeslot, check out the Res Life lottery webpage where available rooms will be updated every 10 minutes. At your appointed timeslot time, your Roommate Group leader should login to Bricks and Beyond to select a room. If your first choice isn’t available, you can reconfigure your group so you can see other options. Other groups will begin selecting behind you and may take a room you are interested in. The sooner you finalize your room selection, the more options you will have to choose from.

# Lottery Planning Sheet

<table>
<thead>
<tr>
<th>Name of Group Member</th>
<th>Class Standing</th>
<th>Points</th>
<th>Sub-Free Yes/No</th>
<th>Housing Priorities List out 1st, 2nd and 3rd choice</th>
</tr>
</thead>
</table>

Your Group's final housing priorities:
1) 
2) 
3) 

Are there any housing locations members of your group will not live?

If your first choice isn't available, how will you reconfigure your room to select other-sized housing options?
