Mellon Mays Undergraduate Fellowship Program
Summer Research Training Program Evaluation Form

Please complete this Program Evaluation Form and return it to OSAP upon completion. This will be part of your file kept at the Office of Special Academic Programs and it may be submitted to the Mellon Foundation with our program's annual report. Please complete it carefully and thoughtfully and submit a copy, along with any other work you've completed, to your mentor as well as to OSAP by the date indicated by the coordinator.

Name: ___________________________________ Date: __________________________

Mentor: __________________________________ Department: ______________________

Research Interest: __________________________________________________________

Project Title: ______________________________________________________________

Please list fellowship-related activities you participated in this summer (workshops, conferences, talks, trips, etc.), including any activity for which you used travel and research funds.

Please attach a complete summary of your research, including, but not limited to, the following:

- Describe the nature of the research and your reasons for pursuing it.
- Describe the methodologies you employed.
- Summarize your findings and/or accomplishments.
- Comment on how this research project will inform your future research.
- Include a paragraph or two explaining the role of your mentor in guiding and/or helping you in your research. What aspects were particularly beneficial? What more could be done to enhance this relationship?
- Provide a complete bibliography

Please write a brief report (one to two pages) describing what you accomplished during the colloquium. What sort of feedback did you receive from the audience? Was the feedback helpful? How did your final paper and presentation point you to further research? What new readings did you do? Did you do any work for your mentor?

We would like to know your thoughts on the value of the summer program. Describe how the program has contributed to your overall intellectual growth? Please keep the following in mind when responding:

- How helpful were the workshops and seminars offered. Please be specific.
- Were your living arrangements and extra curricula activities adequate?
- How can Mellon help you in further preparing for graduate work? Please explain.
- Are there aspects of the cross-cultural dimensions of the program that you enjoyed or would change? If so, what are they, and why would you change them?
- Is there anything you wish you had known before the program started?
- Do you have any suggestions for future programs?

We are interested in any additional comments that you feel may benefit the fellowship program. Please include them on a separate page. Thank you.

**Thank You!**
