Hiring a New Student Employee (From Pre-Hire Status)

A student is listed in the system as a Pre-Hire if the student has never worked on campus AND has completed an I-9 form. *Supervisors should NEVER Pre-Hire students in Workday.*

1. Check to see if the student is in Workday. Type the student’s name in the **Search Box** to determine current employment status. If the student does not show up in the Search Results, click All of Workday.

If the student still does not show up the Search Results, then the student has not yet completed the I-9 required for employment. **You cannot hire the student until the I-9 is complete and SEO added the pre-hire record.**
2. Click the Related Actions brick (next to the name) and then click Hire > Hire Employee.

3. Ensure your STUDENT Supervisory Organization appears and then click OK.

4. In the Hire Date field, enter the date you want the student to start work.

Note that the employee will not be able to see the job nor log hours in Workday until this date.

5. In the Reason field, select Student > Student - New Hire.
6. In the Job Details area, enter the following values for all student employees:
   - **Employee Type** – For Current Country > Temporary (Fixed Term)
   - **Job Profile** – In the Job Profile pick list, type a few characters from either the department name or the job title. A list of options will appear. Select the job, or a similar job (job title can be adjusted in another field).
   - **Time Type** – Part Time
   - **Location** – Maine
   - **Workspace** – (leave this field empty)
   - **Pay Rate Type** – Hourly

The Job Profile for all students is the position title preceded by the department name and a hyphen with no spaces. If you are not sure which Job Family to choose, check with Student Employment.

7. Click **Additional Information**.
8. In the **Default Weekly Hours** field, change entry from 40 to **0**.

9. In the **Scheduled Weekly Hours** field, change entry from 40 to **0**.

---

If the job title is different from the job profile, you can edit the Job Title field. Keep the format the same using the department name-job title. When entered the business title will automatically change to match the job title.

---

10. In the **Additional Job Classifications** field, enter 0-0 weeks/0.00 FTE (Weeks Per Year).

   **IMPORTANT:** Use 0.00 FTE Job Classification for student employees (they are not eligible for benefits).

---

11. In the **End Employment Date** field **08/31/year of expected graduation**.

---

12. Click **Submit**.

   A confirmation screen opens showing the next step in the hiring process.
13. Click **Open** to propose compensation hire.

If you accidentally click Done instead of Open on this screen, you can access the next step of the hire process in your Workday inbox.

14. Scroll down to the **Hourly** section and click on the pencil icon to edit the fields. In the Amount field, enter the hourly rate for the position.

If uncertain what the pay rate is for a specific position, please contact the Student Employment Office.

15. Click **Submit**.

A confirmation screen opens showing the next step in the hiring process.
16. Click **Open** to Change Organization Assignments. The Organization Assignment is where you will assign a cost center (project number).

**Success! Event submitted**
Propose Compensation Hire: Huckleberry Hound - Dining (Student)

17. Scroll to **Cost Center** section and click the pencil to edit the field.

18. In the **Cost Center** field, type a few characters from either the cost center number or the name. When the cost center appears in the Search Results, select it.

19. Click **Submit**.

A confirmation screen opens showing that the student has been successfully hired into the position.

**Success! Event submitted**
Assign Organizations: Huckleberry Hound

You’re done!

Student Employees will receive a notice in their Bowdoin email reminding them that they need to log in to Workday and complete their onboarding (tax forms and direct deposit).
