The Primary Recruiter is responsible for moving candidates through the workflow

### **Review Stage**

#### Candidates will land in Review once the application is submitted.

Candidates can remain in Review until a decision is made to screen/interview or decline the candidate. After reviewing the candidate's profile, select the appropriate action for their application at the bottom of the screen.

**Move Forward**: Select the appropriate next stage.

**Decline**: Select the appropriate disposition reason. If you decline a candidate, they receive an email notification <u>immediately</u> that they were not selected for the position, provided the reason selected has (send email) next to it. If you choose not to send the auto generated email, it is your responsibility to communicate with the candidate(s).

	Move Forward	Decline		
--	--------------	---------	--	--

If declined, the candidate profile will still be available via the Candidates tab on the job requisition, under Inactive Candidates.

## Screen/Interview Stage (Optional)

Candidates may be moved from Review to Screen if they are under consideration and/or interviewing for the job. This is an optional step and may be helpful in managing applications.

- Students can be moved to the Screen stage of the process from the candidate record.
- After screening/interviewing, move the student to the next stage or select a disposition reason which will notify the candidate that they will not move forward.
